# Bellefonte Republican.

Established in 1869.} "Let Us See To it that A Government of the People, for the People and by the People, Shall Not perish from the Earth."—A. LINCOLN. Terms: $1.50 per Year

VOL. XXVI BELLEFONTE, PA., THURSDAY MORNING. FEBRUARY 14, 1895. NO 7

A Newspaper Famine, while not fatal to life, is one of the annoying experiences of a community isolated from the world by insurmountable snow drifts. Many inland towns in this and other States have been cut off from the accustomed supply of news furnished to them by the great dailies. This has been a real deprivation, but it has taught the snow-bound communities how much the daily newspaper ministers to their happiness.

THE extremity of the weather has dealt a hard blow to the sea food industries. Fish and oysters for a few days will be scarce, and command high prices. It will not be necessary, however, to dispense with the keeping of Lent. Penitential provender will be in plenty before Ash Wednesday dawns. Nor is it, after all, a far cry to spring. Underneath the snow the tulips and the crocuses are snugly biding their time, while in the far South the blue bird waits impatiently for the sun to wheel higher in the heavens. Winter is making amends for a green Christmas, but must soon resign his sway, however reluctantly.

The bill, which is quite lengthy, charges among other things that Director Windrim in violation of law awarded the contract at a figure in excess of the sum appropriated for the work; that he allowed the work to be commenced prior to the approval of the surety of the contractors, that he, without notice to the City Controller, or to the City Councils, altered the specifications so that other materials than those contracted for were furnished in the work, and that by such changes, the city has lost a large sum of money.

The orator further states that he believes that if a cutting be mad through a section of the reservoir embankment from top to base, it will be discovered that the specifications of the contract have been violated.

THE joint resolution that passed the Oregon Legislature providing for a constitutional amendment giving women the right to vote on equal terms with men is the first tangible fruit of the Colorado experiment. The result of giving women full suffrage rights in Colorado was sure to influence other states in that neighborhood. Oregon is the first one to follow, although that State has heretofore shown no decided leaning in that way. The adjoining State of Washington in its territorial days granted full suffrage to women, but Oregon was in no way affected by the example of its neighbor. It is now, however, taking the lead in this matter, while Washington, since it became a State, has turned its back on woman suffrage. No harm appears to have come so far to Wyoming or Colorado, and it seems probable that before the end of the century most of the States in their vicinity will follow the example they have set.

The Gettysburg Park Bill, which will, no doubt, be signed by the President, will bring under Government control and guardianship that great battlefield, and guarantee its immunity from desecrating invasion and spoliation while the Government endures. The entire battlefield will pass under Federal protection, and exery feature of it will be appropriately marked. The field of Gettysburg is, beyond question, the most attractive historic resort in the country, and it will become more and more inviting as time rolls on. The legislation by which this battlefield becomes the possession of the Federal Government is the culmination of General Sickles's patriotic and indefatigable endeavor to make the future of Gettysburg secure. Without the zeal, so intelligently and energetically exerted by him, the project might have slumbered for years. It has now reached a complete and satisfactory consummation.

THE news that La Gascogne has weathered the gales and arrived outside New York harbor with all on board safe and sound will send a thrill of joy to every heart in this broad land. While but few of our people had friends on board the storm-buffeted steamer, all realized that the passengers were imperiled human beings. This touch of nature which makes the whole world kin made the whole world as anxious for the safety of the passengers and crew of La Gascogne as though every imperiled soul had been a brother or sister, and the rejoicing over her safe arrival will be universal. Later we shall know all the particulars of her stormy voyage, and the story of danger and hardship safely overcome will be as eagerly read by those who had no friends on board as by those who had. For the present the public will be content to know that La Gascogne and her passengers are safe and that the tragic story of the ill-fated Elbe was not repeated in their experience.

—Our Roller Flour at 75cts. a sack is giving splendid satisfaction. Try it. For sale at Eureka Grocery, High street, next door to postoffice. tf

### Trade, Gold And Debt.

New York city last week found itself unable to borrow in "coin" and its financial authorities decided to issue "gold" bonds in future in order to secure a lower rate of interest. The Massachusetts Legislature the week before voted to make bonds just about to be issued payable only in "gold" so as to reduce the interest asked on a "coin" bond. The Idaho Legislature, which a year ago made mortgages payable only in "coin," a fortnight ago repealed the act and left mortgages payable in "gold," as they are in Nevada and most of the so-called "silver" States by general practice. The newspapers for six weeks past have contained many reference to the adoption of "gold" in various obligations heretofore containing the words "dollars" or "coin."

These manifold indications that creditors are waking up to the difference between "gold" and "coin" culminated in the declaration of the President's message on Friday that the Government could borrow at 3 per cent. in "gold," but must pay 3 3-4 per cent. if the bonds promised to pay only "coin."

So far as a bond issue tended to maintain "gold" values, it aided the return of confidence. When it is perfectly clear to everyone that every particle of the $1,000,000,000 of paper outstanding is good "gold" the currency will command confidence—not before. The announcement of a bond issue checked gold exports and none went abroad last week. Foreign exchange fell and gold imports are expected when the bond transaction is completed. This will check the contraction of the currency in circulation which has taken place, as usual with a discredited currency by the export of its more valuable portion. Within a year this contraction has amounted to $126,000,000. There has been returned to the Treasury $42,000,000 of legal tender notes and $33,000,000 in Treasury notes, while the amount of gold coin in circulation has been diminished by $21,000,000. In addition, gold certificates have diminished $24,000,000 and currency certificate $7,000,000. As soon as gold exports cease, and, still more, when gold imports begin receipts from the latter source and from the gold product will rapidly make good this contraction.

### Observations.

Even the worst blizzard blows over.

Better be poor in purse than poor in soul.

The successful paragraphist is born, not made.

The most credulous creature on earth is the agnostic.

It is well to look out for No. 1, but not at the cost of honor.

Ben Hur is having quite a boom in this community just now.

A friend is so invaluable a possession that he should never be abused.

What a lovely day yesterday was—when compared with last Friday.

A vain man's best friend is the cynic who pricks the bubble of his vanity.

There are men in this world who have a chronic quarrel with honest labor.

The man who always refuses to take the first glass of liquor will never die a drunkard.

When a preacher's wife can no longer eat chicken the situation has become desperate.

The man who thought his nose was frozen last week is happy again. It was all a mistake.

There is a difference between firmness and stubbornness. The latter is a deforming vice.

Almost anybody knows how a thing ought to be done—until it comes to the doing of it.

Lincoln, whose birthday was kept Tuesday had a homely exterior. But he was luminous within.

People who would scorn to steal a neighbor's old clothes have no scruples of conscience about appropriating his thoughts.

Bad men may repent and reform. But until they do that, bringing forth fruits meet for repentance, they should not be countenanced.

The Pennsylvania railroad has a good many miles of track running through mountainous regions, but it seldom stays closed to traffic long.

Just now he is paralyzed, but the next mild winter he will bravely pipe about the "old fashioned winters we used to have when I was a boy."

The woman who never meets her mate in life may be a little lonely, but she is far happier than her sister who marries a selfish brute, mistaking him for a gentleman.

That young woman of whom the NEWS tells, who was "going to finish getting converted," set an example that many of us might well follow. We have never quite "finished."

### The Apple of Appomattox.

One of the war fictions that will not down is that Lee surrendered to Grant under an apple tree. "Apple tree of Appomattox" blooms perennially in newspaper literature. It can't be killed. Frost doesn't hurt it—all attempts to "freeze it out" have failed, It is proof against wind and weather of denial and denunciation. The axe has been laid at its roots by many historians, but the tree shoots up again, instanter.

The terms of surrender were arranged at the house of Mr. McLean—a gentleman who having been driven away by battle from his farm at Manassas, sought refuge on another farm of his in secluded Appomattox county. In his house Lee and Grant met. There they happily arranged the terms of surrender of the Army of Northern Virginia in a correspondence of wonderful brevity and clearness. A deed drawn in the usual form conveying an acre of Appomattox land worth $5 would have had more words in it than Lee and Grant used to dispose of the lives and fortunes of thousands of men.

But there certainly was an apple tree at Appomattox, and it was incidentally connected with the surrender. Beneath this tree Lee lay and waited to hear what Grant would say in response to his (Lee's) proposition to cease hostilities. Exhausted from the loss of sleep, weary from long hours in the saddle, his heart, weighted with sadness, Lee rested his head and stretched his limbs under the fragrant blossoms of the apple tree. We hope that tree still stands. When the battlefield is parked, in accordance with the suggestions of the Dispatch, every Southerner will wish to see that tree, or, if the tree be dead and gone, the spot where it stood.—Richmond Dispatch.

For the correction of the Dispatch we will say that the writer, who is the editor of the Times, was present at Appomattox at the time General Lee surrendered to General Grant. He was a member of Company C, 4th Penna. Cavalry. The Company was on detached duty at General Griffin's (formerly General Warren's) or 5th Corps headquarters and as an eye witness he can truthfully say that the two noble generals met under the apple tree and arranged the terms of the surrender and then retired to the house to put into writing what had been decided and agreed upon in the open field. While the distinguished generals were talking many of the boys in gray who did not know that a flag of truce had come in would fire at the sight of a blue coat and bullets flew thick around headquarters. Our boys had been ordered not to fire, but as Griffin continued to fire our boys returned the shots. At last General Griffin yelled at the top of his voice "Damn it boys, if you don't quit firing, I will make it hot for the next man that fires a shot." There was not another shot fired in the near vicinity of where the terms of peace were being made. As soon as it was known that Lee had surrendered the boys were so happy that they shouted with joy, and the boys in blue who were the nearest to the apple tree, cut it down and began to divide it into small portions to keep as a memento of the time and place where the cruel war was brought to an end. As a member of old company C, who received a share of the tree, I will say that I still retain the portion I received. It measures ¾ inches thick by 2 inches wide and 3½ inches long and weighs 1½ ounces. I presume that many of my comrades still retain and prize their share of the tree as I do.

FERDINAND S. NEVLING,
Company C, 4th Penna. Cavalry.
—Karthaus *Times*.

### The Forestry Bill Passed.

The House of representatives at Harrisburg very wisely refused to be influnced by the captious objections to the forestry bill. Its final passage in the House yesterday is a great triumph for Representative Lytle, who has ably championed it at every stage of its career, and for Forest Commissioner Rothrock, who framed it because his investigations proved the exceeding need of it and who watched with anxious interest its passage through the House.

In the Senate surely no serious opposition can develop to measure to prevent or mitigate forest fires. They are the bane of every forest State and cause the State a loss of millions of dollars nearly every year To oppose legislation against this evil is as intelligent as for a city legislature to oppose the maintenance of a fire department. The Senate can be trusted to do its duty in the matter. Let the House continue to do its part by taking up the next forestry bill providing for forest reservations. There are places where nature has planted forests whose maintenance is for the permanent good of the State. The reservation bill aims to preserve a few of these virgin forests for the protection of the head waters which have their sources among them.

This important measure is unwisely held back in committee. Let it be reported and printed and laid before the House without further delay. If the Legislature is as far sighted and intelligent as we take it will then take up and pass this forest reservation bill as readily as it has forest fire wardens bill.

### How Cold Waves are Formed.

Professor A. H. Hazen says of the origin of cold waves. "They are very strange phenomena. Nobody knows with certainty where they come from or how they are formed. They are formed somewhere in land in the far northwest, in the latitude of greatest cold, which, as you know, is a good way south of the north pole. At the north pole it is probable comparatively warm, and that extremity of the earth's axis is perhaps surrounded by an open and unfrozen sea. As for the typical cold wave, my belief is that it is composed of air drawn down from the higher and more frigid regions of the atmosphere. Ascend to an altitude of 30 miles above the earth's surface, and you might find a rarefied air at a temperature of 100 degrees below zero, or even much lower. The body of cold formed by the downrush of this frigid air from above starts on a journey eastward across the continent, traveling at the speed of a fast railway train, say 35 to 40 miles an hour. As it proceeds it spreads out. Obviously, the cold air would be gradually warmed during the trip unless the wave was replenished with cold in some fashion. My notion is that while the wave is in transit fresh cold is continually drawn into it from above, where there is always an unlimited supply of air at an extremely low temperature.

### Gold at a High Price.

Mr. August Belmont in a long interview on the recent gold purchases by the Government says the gold will stay in the Treasury. How is this possible unless the Secretary of the Treasury is given some authority in the matter of holding it and protecting it, and unless there is a surplus revenue? Europe is willing to pay a premium on gold, and the United States Government has just paid a most extravagant price for the metal. It is a most valuable commodity.

For $62,000,000 gold the Government traded $62,000,000 4 per cent. bonds, the market price of which is 119 1-2, and it is stipulated that only half the gold shall come from abroad. Therefore for $31,000,000 of foreign gold and $31,000,000 of domestic the United States has obligated itself to pay $62,000,000 principal and $74,000,000 in interest in round numbers. These figures and the syndicate's prospective profits indicate what gold is worth and how difficult it is to get it.

Mr. Belmont estimates the syndicate's profits at 4 or 5 per cent. The thirty year 4s cost the syndicate net 104 1-2. The 12 1-2 year 4s are selling in the open market at 110 3-4. At this rate the thirty year 4s are worth 119 1-2, and the market price of United States bonds is lower than usual, having suffered for three months from the mal administration of Mr. Carlisle, as the New York bankers can explain. If these figures are correct the profits of the syndicate are more than 15 per cent. instead of 4 or 5 per cent., as stated by Mr. Belmont.

### Little Sayings.

Give your attention now to local politics.

This will be nice to think about next summer.

A washout: when the family linen goes over the line.

It's a mercy this isn't the time for Fourth of July picnics.

We cannot do a man a greater wrong than to misjudge him.

Be careful of your actions for they reveal your character.

Self-will is so ardent and active that it will break a world to pieces to make a stool to sit on.

Be rather bountiful than expensive, do good with what thou hast, or it will do thee no good.

Exercise gradually increase the physical powers and leave more strength to resist sickness.

A man "too busy" to take care of his health is like a workman too busy to sharpen his tools.

Body and mind are both gifts, and for proper use of them our Maker will hold us responsible.

### The Hayward Murder Trial.

Minneapolis, Feo. 13.—This afternoon the prosecution in the Ging murder trial rested and an adjournment was taken until tomorrow, when the defense will open its case.

Harry Hayward, when asked what he thought of the situation, said: "I think that if this was the end of it, my chances would not be one in a thousand; but it is worth while remembering that only one side of this story has been heard. We have a tale of our own to tell and that may make a difference."

### Uses for the State's Money.

State Treasurer Jackson has estimated that the revenues of the State for the next two years will amount to about $11,000,000 a year, or $22,000,000 for the two years which will be covered by the appropriations to be made by the Legislature now in session. It is manifest that the appropriations ought not to exceed the revenue. That would simply be running the State into debt, which could not be excused at a time when there is no extraordinary reason for it.

The Legislature, however, if it goes on at the pace which its beginning indicates is likely to vote away many hundreds of thousands of dollars—if it does not run considerably into the millions—more than the revenues. One-half the income, as estimated by the State Treasurer, will be appropriated to the common schools. It will take exactly $11,000,000 for this purpose for the next two years if this appropriation is to be kept up to the figure of the past two years, and it is hardly probable there is anyone in the Legislature who will seriously propose to make it less. It may be taken for granted, then, that $5,500,000 a year will go for school purposes, which will leave $5,500,000 a year for all other purposes.

There are certain fixed expenses which amount to almost $3,000,000 more each year, such as the cost of the Legislature, the judiciary, the executive departments, supplies of various kinds and the National Guard. In addition to these large sums must go for the support of the insane hospitals and asylums, the penitentiaries and the reformatories, which must be maintained wholly by the State, so that it can be pretty clearly seen that when the essential demands upon the Treasury are provided for there is not likely to be very much left to be inconsiderately disposed of or to be regarded as a grab to be had by the first who reaches for it. This fact must be plain enough to those who have given the subject thoughtful attention.

It is a fact, however, that does not seem to have penetrated the Legislature far enough to make a marked impression. Bills are now before one house or the other which if passed into laws would call for amounts from the public treasury which ought never to be thought of as a charge upon the State. There is also a disposition to increase the fixed expenditures of the State by a large addition to the number of Judges throughout the Commonwealth, all of whom will have to be paid. There are many members of the Legislature who seem to have the idea that the cash in the Treasury is inexhaustible, and that all that is necessary is to get an appropriation. Every member naturally wants to get his own scheme through regardless of what becomes of the others.

### Ballot Law to Be Corrected.

The Patriot this morning says: The defects in the ballot law are to be corrected. Senator Baker, the framer of the act, is collecting copies of the proposed changes and suggestions that have been offered; he has also received the changes recommended by the Ballot Reform association, but will press no definite measure until agreement has been reached with the members suggesting amendments. These proposed changes will likely be combined into one bill for which a special order will be asked in both bodies. As to the constitutionality of the act in regard to voting upon questions of municipal indebtedness the title will be amended so as to cover this seeming defect. The senator will also endeavor to amend the twenty-sixth section by requiring every voter who declares that he has a disability and requires assistance to make his statement under oath upon printed form as now required by residents and on age. He courts criticism of the act and he is open to any suggestions that can be made that would increase its efficiency.

### Worthy of Special Notice.

Reference has been frequently made to the enterprise and excellence of The Pittsburg Times as a newspaper. Just at this time another feature worthy of mention is noticed. That is the consistency of The Times in adhering to its policy of giving all the news in concise form. The American people are so busy that it is an imposition to ask them to wade through a column article when all the facts may be given in a few lines. When you get the Pittsburg Times you find all the news of the world in such form that the busiest man may keep fully informed concerning the events of the day. The space thus saved is filled with so many bright special features that it is no wonder The Times is the most popular family newspaper in Pennsylvania. If you are not a reader, subscribe at once. The cost is only one cent a day; sample copies free.

—Bellefonte is having its share of afflictions this winter. First it was the measles, then the whooping cough followed with diphtheria and now there is scarlet fever.

### Household Hints.

If salt is mixed with the flour before stirring in the gravy it will prevent lumps.

Oysters or clam shell against the bricks of a furnace or range are a remedy for chickens.

The hair should be brushed often and combed little. The brush is a great beautifier of the hair.

Tumblers that have contained milk should never be washed in hot water, as it clouds the glass permanently.

In making cakes if four eggs are called for two will be sufficient if two tablespoonfuls of corn starch are used.

A mustard plaster when mixed with the white of an egg instead of water will draw but will not blister.

By mixing a teaspoonful of lemon extract and about a third of a teaspoonful of vanilla, you will have a new flavor.

After you have given the baby his bath thoroughly wash the sponge and other little accessories of his toilet and dry in the sun.

Manicure your nails thoroughly each day, but remember that the use of powders and paste to increase their brilliancy is in bad taste.

When anything has been accidentally made too salty it can be counteracted by adding a teaspoonful of vinegar and a teaspoonful of sugar.

Chop half a cup of dates and mix with the warm breakfast cereal that is taken with milk, not cream, and you have one of the most wholesome of breakfast dishes.

Rub the hands with a stick of celery after peeling onions, and the odor will be entirely removed. Onions may be peeled under water without offence to the eyes or hands.

Surplus soups and gravies should not be allowed to remain in the pot in which they are cooked. Pour into covered earthen bowls and set in a cool place until needed.

The annoyance of a rough griddle when baking cakes may be overcome by rubbing it with a slice of raw turnip. Those who have used it say that it makes the griddle smooth as glass, and cake baking, therefore, an easy operation.

### Election Next Tuesday.

The day for the borough election is drawing near, being next Tuesday. The new law making the term of Burgess, tax collectors, and constables three years, instead of one, does away with a contest this year over the most important officers, so that the fight will be centred principally on overseer of the poor and councilmen.

The overseer of the poor department of Bellefonte for many years past has been conducted too much as a political trick-shop, with less regard for the welfare of the poor and the benefit of the taxpayer than to advance the interest of the incumbent and his friends. For this reason the voters of Bellefonte should think well and vote wisely for this officer, which is just as important in its field as the President of the United States is in his. And, so far as councilmen are concerned, there need be little comment. The work that they have done and the work they have left undone during the past year speaks for itself. But the voters will make no mistake in selecting the very best men possible to select for the control of the borough government. And, more important than all, is the fact that every man who has the right should go to the polls on that day and exercise it. At the polls is the place to lay the foundation for good covernment.

### Forest Preservation.

The fate of the forestry bill apparently depends on a very simple thing. The bill contains a paragraph, providing that "Every person assisting to suppress a forest fire when called on for such service by a fire warden shall be entitled to payment at a daily rate not greater than one dollar and fifty cents per day, or proportionately for parts of a day.

The contention of the critics or opponents of the bill is that persons still unhung might start forest fires for the purpose of putting them out at the rate of $1.50 a day.

The friends of the bill argue that the paragraph should remain so that Pennsylvania might find out what forest fires cost the State anyway. The point is a difficult one to settle and the danger that the well intentioned measure may fall through, is a matter of great regret to all who have knowledge of the importance of the subject of forest preservation.

### She Was Quickly Revenged.

New York, Feb. 13.—John Post, a wealthy iron merchant, was knocked down on crowded Broadway Tuesday afternoon by a well known business man for, as several witnesses declared, insulting a young woman who was passing. Post is 70 years old, and the father of grown up children. He declares it was a "horrible" mistake. The woman struck him with her umbrella after he spoke to her.

## ADVICES FROM PHILADELPHIA.

### The Blizzard of 1888 Has Been Knocked Out By the Present One.

Philadelphia, February 8.—Not since the memorable March blizzard of 1888 has such a storm swept Eastern and Central Pennsylvania as that which began yesterday afternoon. The railroads were taught a costly lesson by the '88 storm and were better prepared to meet such a snowfall as prevailed last night; but nevertheless, despite their every effort, their train service was absolutely demoralized.

From every section of Eastern and Central Pennsylvania, from Delaware and South Jersey come reports of trains stalled in snow banks and abandoned by their crews. In this city the snow ceased about 4 o'clock this morning, after about seven inches on the level had fallen. The hurricane that was blowing piled the snow in drifts in the street, but the trolley car companies kept the tracks clear and maintained a fairly regular street car service. In the suburbs, however, the trolley car service was completely abandoned.

The lowest point reached by the thermometer was 1 degree below zero, at 7 o'clock this morning. From time on till 2 30 it raised slowly to 9 degrees above, and then began to fall until at 8 o'clock tonight when it stood at 6 degrees. The mercury is still falling and the local weather bureau predicts that by to-morrow it will be from 8 to 10 degrees below zero, with no abatement of the cold in sight.

Not for many years has the Delaware river been so choked with ice as it is now and it is only with the greatest difficulty that the ferry boats between Philadelphia and Camden are able to make the crossing. Further down the river the ice extends from shore to shore and as fast as the powerful ice boats make a passage the river freezes behind them. No wooden vessels have attempted to come up or down the river, for three days and only one steamer cleared to day.

At the breakwater the sea is frozen solid to the shore and people are walking from Lewes to the former place. A big fleet of ships are frozen in at breakwater and some anxiety is felt for several pilot boats that are at sea.

Only about one-third the trains scheduled to leave on the Pennsylvania railroad from Broad street station to-day were moved. Train service on the Trenton cut-off division and the Delaware division of the Philadelphia, Wilmington and Baltimore below Wilmington was entirely abandoned on the Pennsylvania railroad.

No effort was made to move freight trains to-day. The train service on the New York division was greatly interrupted and not a third the usual number of trains passed between New York and Philadelphia to-day that are usually run. On the main line the western train leaving here at 12 50, the Chicago limited leaving at 12 20, and the St. Louis express leaving at 4 30, were abandoned. The only trains that are expected to leave for the west to-night are Pan Handle train No. 107 and a train to Chicago and a mail train. It is expected that these trains will leave here about midnight.

### A Good Bill if Passed.

Harrisburg, Feb. 8.—Some recommendations regarding legislation were made by the State Sportmen's association at a meeting held here last night. The association endorses the game commission bill and the enactment of a law prohibiting the killing or taking of deer, squirrel, hare rabbits, wild turkey, ruffled grouse, any kind of pheasant, quail, partridge and woodcock at any time, save between the 15th day of October and the 31st day of December, next following inclusive. Provided, however, that woodcock may be shot from the first day of July to the 31st day of July inclusive.

That the fish law be amended as to prohibit the taking or catching of speckled trout for the purpose of sale; that the law prohibiting the gathering and taking the eggs of all game birds for scientific purposes be amended to prohibit the taking of the same for any purpose.

Senator Grady's bill, prohibiting the sale and exportation of game, is recommended to be amended by striking out all provisions relating to speckled trout and extending its provisions to squirrels, hares, rabbits, the wild turkeys, partridges and all kinds of pheasants.

### Advices from the Orient.

London, Feb. 7.—A Shanghai dispatch to the Central News says: The Shanghai Mercury publishes a special dispatch which says that on the night of February 4, the Japanese placed torpedoes at the entrance to the Wei-Hai-Wei and their torpedo boats made a dash for the Chinese warship Ting Yuen, which they succeeded in sinking. The next night the torpedo boats made a rush and sank the Wei Yuen, Li Yuen and Paohua.

A dispatch from Chee Foo says the Japanese commenced at noon on February 7 to bombard the western forts of Chee Foo. The foreigners there were armed and the town gate was closed and barricaded. The attack is regarded as a feint to cover the landing of additional Japanese troops which landed last evening ten miles east of Chee Foo, and are now attacking the eastern forts.

### Escaped a Bad Accident.

Greensburg, Feb. 8.—The Youghiogheny express due at 10 o'clock from Pittsburg and going south, made a narrow escape from an awful accident at the southwest junction. The train was just leaving the main line when the engine jumped the track.

The train was running rather slow at the time, and the prompt action of the engineer saved the lives of the many passengers, for when the engine came to a standstill it stood on the brink of a 200 foot embankment. Great consternation existed among the passengers when they saw the peril, and many gave up their journey. The engine was replaced. No cause is assigned for the accident.

### What it Will Cost.

The amendment proposed by Senator Hawley, that no pension shall be less than $6 a month, has passed the senate and now goes to the house for concurrence. If it becomes a law it will benefit at once 48,499 pensioners. There were on the roll, June 30, 1894, the following number of pensioners receiving less than $6 a month:

| | | |
|---|---|---|
| Receiving $1.00 a month | | 15 |
| " 2.00 | " | 10,048 |
| " 2.25 | " | 1 |
| " 2.33⅓ | " | 1 |
| " 2.66⅔ | " | 3 |
| " 3.00 | " | 549 |
| " 3.12½ | " | 1 |
| " 3.25 | " | 1 |
| " 3.33⅓ | " | 5 |
| " 3.75 | " | 104 |
| " 4.00 | " | 37,089 |
| " 4.25 | " | 146 |
| " 4.75 | " | 1 |
| " 5.00 | " | 518 |
| " 5.25 | " | 1 |
| " 5.33⅓ | " | 7 |
| " 5.66⅔ | " | 3 |
| " 5.75 | " | 7 |
| | | 48,499 |

The aggregate annual cost of raising all these to $6 a month would be $1,414,774, but it would carry a great increase of comfort and happiness to nearly 50,000 poor homes, and be a thousand fold worth its cost. Besides, it would be an act of eminent justice and national honor. It is absurd to the last degree to think of a man having $1 worth of diarrhoea, or $2.20 worth of rheumatism, or 2.33⅓ worth of malaria. There is nothing so homeopathic about the war, its dangers and hardships. As General Harrison once said, the nation should not use apothecary's scales in meting out justice to its survivors.

### Eclipses for 1895.

There will be three partial eclipses of the sun this year on March 25, August 20 and September 18, but they will be unimportant and not one of them will be visible in this country. There will, however be two total eclipses of the moon which will be visible to us, provided the nights are clear. One will take place March 10, from 6:52 p. m. to 8:27 p. m. The other will occur September 4, lasting from 9:06 p. m. to 10:48 p. m.

### Unseated Lands.

A bill has been introduced into the legislature authorizing the county commissioners of the several counties to sell to actual settlers and convey unseated lands belonging to the several counties.

LYDIA E

PINKHAM'S
Vegetable Compound
Is a positive cure for all those painful
Ailments of Women.
It will entirely cure the worst forms of Female Complaints, all Ovarian troubles, Inflammation and Ulceration, Falling and Displacements, of the Womb, and consequent Spinal Weakness, and is peculiarly adapted to the *Change of Life*. Every time it will cure
Backache.
It has cured more cases of Leucorrhœa than any remedy the world has ever known. It is almost infallible in such cases. It dissolves and expels Tumors from the Uterus in an early stage of development, and checks any tendency to cancerous humors. That
Bearing-down Feeling
causing pain, weight, and backache, is instantly relieved and permanently cured by its use. Under all circumstances it acts in harmony with the laws that govern the female system, and is as harmless as water. It removes
Irregularity,
Suppressed or Painful Menstruations, Weakness of the Stomach, Indigestion, Bloating, Flooding, Nervous Prostration, Headache, General Debility. Also
Dizziness, Faintness,
Extreme Lassitude, "don't care" and "want to be left alone" feeling, excitability, irritability, nervousness, sleeplessness, flatulency, melancholy, or the "blues," and backache. These are sure indications of Female Weakness, some derangement of the Uterus, or
Womb Troubles.
The whole story, however, is told in an illustrated book entitled "Guide to Health," by Mrs. Pinkham. It contains over 90 pages of most important information, which every woman, married or single, should know about herself. Send 2 two-cent stamps for it. For
Kidney Complaints
and Backache of *either sex* the Vegetable Compound is unequaled.

Lydia E. Pinkham's Liver Pills cure Constipation, Sick Headache, 25c.

All druggists sell the Vegetable Compound, or sent by mail, in form of pills or Lozenges, on receipt of $1.00. *Correspondence freely answered.*

You can address in strictest confidence, LYDIA E. PINKHAM MED. CO., Lynn, Mass.

### The Standard Fire Policy.

Some weeks ago the Supreme Court of Pennsylvania declared unconstitutional the act of 1891, under which the Insurance Department of the State prepared a form of fire insurance policy that has been in use ever since, and known as the Standard policy. The court explicitly declared the right of the Legislature to enact a uniform policy, but denied its right to delegate such power to any appointed.

This decision practically leaves Pennsylvania without a uniform or Standard policy, such as exists in most other States. The policy which has been in use here is exactly the same as that used under legislative enactment in New York, New Jersey and a considerable number of other States. It was not merely a convenience on this account, but its settled and ascertained character—rendering the interpolation of special conditions impossible—made it a measure of security to the insured which could not have been so well had under other circumstances. It was in the interests of the insured that the act authorizing the Standard policy was originally passed.

With that act declared unconstitutional, everything must remain at loose ends until some legislation can be had to take its place. It is not to be supposed that any reputable insurance company will take advantage of the present condition to put unnatural or unusually exacting stipulations in their policies, but there is really nothing in existing law to prevent any company from inserting whatever it may please in its policy, if it can get the insured to accept it as a part of the contract. As a matter of fact, in the absence of law, provisions have sometimes gone into these contracts which were not understood by the insured, who have found too late that they were very poorly protected, or not protected at all.

As the Standard policy is no longer the enforced legal form in this State, therefore and the insurance companies are left to their own inclinations, whether good or bad, it is clearly essential to the interests of the great mass of people who have to secure insurance that this Legislature shall correct the mistake made by the Legislature of 1891, when it delegated to the Insurance Commissioner a power which it could only exercise itself. The people must have something to depend upon; they must have a uniform and a fixed policy, binding upon all insurance companies alike and which can be sustained in the courts. Without something of that kind there will be little certainty or protection for the insured.

### Special Grange Meetings.

By a resolution of the County Grange, at the meeting held at Centre Hall on the 25th ult., it was determined to hold the following special meetings, for the benefit of the order at the several places named on the following dates:

Centre, Leonard and Half-moon Granges, at the Leonard Grange, at 1 p. m., Tuesday, Feb. 12.

Victor and Washington, at hall of Washington Grange, 1 p. m., Feb. 13.

Bald Eagle and Union, at Unionville, 1 p. m., Feb. 14.

Howard and Marion, at Howard, 1 p. m., Feb. 15.

Providence, Fiedler, Rebersburg and Madisonburg, at Millheim, 1 p. m., Feb. 21.

Fairview, Spring Mills and Progress, Fairview, Feb. 22.

Logan and Benner, at Benner Grange Hall, 1 p. m., Feb. 26.

Walker and Zion, at Zion Grange Hall, 1 p. m., Feb. 27.

The new Grange Hall at Feidler will be dedicated on Wednesday, Feb. 20th, at 1 o'clock, p. m. The hall will be open to all. A private meeting will be held in the evening.

### Roads.

At this season, when the roads are made alternately hard and soft by freezing and thawing, farmers are nearly blockaded in some sections. It is a good time to study the problem of good roads, and make resolutions regarding them another winter, but in summer the subject of taxation will take the preference. Now is the time to estimate how much you are losing from bad roads. The tax is a small sum compared with the advantages gained by good roads. So says the Philadelphia Record, and it applies to the road districts of Centre county with all force. Our public roads are a shame and a disgrace; a source of more damages to pocketbook, body and soul than any one thing in the neighborhood. Let us brace up and remedy the evil. We can do it if we will.

### The Poor House Question.

In less than two weeks now the people of Centre county will be called upon to vote on the question of poor house or no poor house. The subject has been discussed in all its varying phases throughout the county and by the partisan press and arguments for and against produced, and yet the people are no nearer convinced now whether it will be a benefit or an evil than they were when the subject was first mentioned. There are so many "ifs" entering into the whole thing that it is, or would be simply an experiment in the beginning and a stern reality throughout time, be it good, bad or idifferent. "If" it was managed right, as it should be, it would be a saving to some portions of the county and at the same time an additional small tax on other portions. "If" it was not managed right it would prove not only a burden all around but a "bugbear" of no mean size. However, it would be with a poor house as it is with all other county business, the people would have a voice in the control by electing the proper kind of men as county commissioners, in whom is vested all the power of government. This is the only correct status of the question.

### Do You Keep a Dog?

Then you must be interested in a neat little illustrated monthly devoted exclusively to the care, management and characteristics of dogs. It is called "The Dog Fancier," is published at Battle Creek Mich., and costs but 50 cents a year. A sample copy sent free. We have received a copy and can truly recommend it to every lover of dogs.

—Now that the weather is too cold for anything else Bellefonters interested should work up the shirt factory enterprise as rapidly as possible.

—A telephone dispatch states that the school house at Hecla was totally destroyed by fire on Friday evening about 7.30 o'clock. It is not known how the fire originated. Nothing was saved out of the burning building.

What Can't Pull Out?
Why the
Non-pull-out

IVORY SOAP
IVORY
IT FLOATS
FORTY MILLION CAKES YEARLY
THE PROCTER & GAMBLE CO., CIN'TI.

—James M. Austin, of Tyrone, has been granted a patent on a car-truck,

—There seems to be a long list of "big things" in store for Bellefonte. Watch for them.

—The minstrels got a warm reception at Eagleville Wednesday night, notwithstanding the chilliness of the atmosphere.

—Now while "the iron is hot" for the shirt factory, let those who can do the striking. Don't procrastinate until the spell is broken.

—Edward Rine, son of Charles Rine, the tobocco dealer who has been on the sick list for several weeks, has so far recovered as to be around on the streets again.

—From every indication at the present there is going to be considerable flitting in Bellefonte this spring. Almost every renter one meets nowadays is going to move.

—Wednesday afternoon the dwelling house at State College owned by Charles Snyder and occupied by William Carl, caught fire and was totally destroyed with all its contents. The loss was about two thousand dollars, on which there was no insurance.

—"Our Book Library," the collection of appropriate literature belonging to Gen Beaver's bible class of the Presbyterian Sunday school, has been moved from the room in the rear of the chapel parlors. And from this time forth it will be open from 4 to 5 o'clock every Wednesday after noon, with a competent person in charge. It will also be accessible Wednesday evenings after prayer meetings is ended.

—The next leap year will be 1896, and then it will be eight years before another. The year 1900 will not be a leap year. The year is 365 days and six hours long, less eleven minutes. The eleven minutes amount to one day in 400 years, when leap year is disposed with. The year 1900 will, therefore, not be a leap year.

—The Pittsburg *Commercial Gazette* has reduced its price to one cent a copy or six cents a week. This certainly is an innovation in journalism as the *Commercial Gazette* is one of the best papers published in western Pennsylvania. Its eight pages are filled with the latest news, and all the news, while it combines many special features that go to make it simply a great family newspaper.

—A new paper for public patronage to be called "The Gattling Gun," will be launched on the sea of journalism in Altoona on the 16th inst. The publication will be a weekly, 6-column octavo, with H. O. Wilson and J. L. Dillen as editor and associate editor. Dillen is the man who attempted to set the world on fire when he ran the NEWS January and February, 1892. He will probably be remembered by a number of Bellefonters.

—Misses Leona and Lillie and Allie Maitland entertained a party of their young friends Thursday evening at their home on Curtin street. Among those present were Misses Ruey Tripple, Jennie Irvin Alice F. Bruce, and Miss Stanton and Messrs. Harry Yeager, Fred Montgomery Morris Jackson, Earle C. Tuten, Newlin Irvin and Samuel Taylor. It is needless to say the young people spent a very delightful evening together and departed with many good wishes for their kind entertainers.

### Produce Exchange.

At the meeting of Centre County Pomona Grange No. 13, held at Centre Hall, Jan. 25th, the committee appointed at a previous meeting, to consider the propriety of establishing a Produce Exchange, submitted among others the following suggestions for the consideration of the members of the organization:

First. To establish with some reliable party in Bellefonte, who could furnish the proper security, a general produce exchange, if not there then at some other point.

Second. The other and perhaps more reliable plan would be to capitalize the Pomona Grange and open a produce market under the Limited Co. Partnership Law in the name of the County organization, not contemplating a store for the sale of merchandise.

The capital necessary for the enterprise to be raised by the County Grange and Grange Insurance Company and the Picnic Association subscribing according to its ability. This would form a nucleus to start with. Then issue two hundred shares of additional stock at $10 per share to be sold to Patrons at par, no patron being allowed to purchase more than ten shares.

The above is simply suggestive and for the consideration of Patrons.

### For Another Edition.

In the senate yesterday Mr. McQuown introduced a bill providing for the publication of an extra edition of 19,000 copies of the book known as "Pennsylvania at Gettysburg," the edition to be practically the same as that of 1891.

### A Philipsburg Author.

Mr. Charlton Dixon, a former resident of Philipsburg, but now at Osceola Mills, has written a Slovak grammar for the use of English speaking students, which is now in the hands of the publishers and will soon be placed on the market. The manuscript was submitted to a Slavish Publishing house, which made Mr. Dixon a very handsome offer for the privilege of publishing and handling the work, which is unique. There is not a Slavish grammar in existence. Mr. Dixon is now at work on a Slovak dictionary.

Mr. Dixon, although of humble birth and parentage, is a gentleman of ripe scholarship and a fine linguist, able to speak and write Latin, Greek, Hebrew, French, German, Italian, Hungarian and Slavish. His learning is all self-acquired. His father, although an English miner, was a student and a scholar, and his sons inherited his fondness for learning. Joseph Dixon, Charlton's brother, was admitted to the polytechnic department of the University of Ohio and graduated with the highest honors in his class, although he had never gone to school in his life before. He was elected valedictorian of his class, and his discourse was so excellent that it was reprinted and circulated by the university.

All this goes to show that it is not necessary to go to school to acquire an education.—*Ledger.*

### Christian Endeavor Convention.

The Centre county Christian Endeavor Societies, of which there are twenty-eight, convened in their second annual convention at State College Thursday evening. The meeting was to have been held in the Presbyterian church but, owing to the inclement weather and the fact that for the same reason only a small number of delegates had arrived, it was held in the College chapel. Though the audience was not a large one the interest and enthusiasm manifested was very encouraging.

The evening's services were opened with the singing of the doxology followed with prayer by Rev. James Heaney, of that place. After a brief praise service the address of welcome was delivered by Dr. George W. Atherton, and the response was made by W. W. Weikel, of Philipsburg. Rev. J. F. Hartman, of Altoona, was to have delivered an address on "Good Citizenship," but he failed to arrive and brief talks were made by other gentlemen present.

### Taken Sick in the Jury Box.

While serving as a juror Will Woodward, of Howard, was taken violently ill and for a while the Court was thrown into a great excitement. He was sitting on the Philipsburg case, which has been trying ever since Monday evening, and as the court room has been very poorly heated all week he contracted a bad cold. On Wednesday he took some medicine for it and apparently it was an over dose for just before noon yesterday he was seized with a violent fit of vomiting and did not recover for some time. He was excused from the jury as the counsel for both sides agreed to go on with the case with eleven jurors.

### Whose Body Is It?

Undertaker C. H. Mauk, of Harrisburg, has the dead body of a person at his rooms awaiting orders to ship it to some western state. He embalmed it one year and a half ago. It is yet in a perfect state of preservation and life-like. Mr. Mauk says he will keep it two years, and then if not sent for will bury it in his cemetery plot. It would have been buried long before this but he wanted to see how long he could keep it.

### Dinner at Gregg Post.

Don't forget the dinner and lunch to be served in Gregg Post room on Washington's birthday. The way of serving will be on the European style and you pay for nothing more than just what you order. The bill of fare is complete and you will be treated well. The proceeds will go toward elevating the sufferings of old soldiers, which is a cause worthy your support.

BRADFIELD REGULATOR CO., Atlanta, Ga.

### THE BIG BLIZZARD.

#### Trains All Blocked, Schools Closed and Court Adjourned.

The blizzard which struck Bellefonte Thursday night proved even more severe and disastrous than was at all anticipated. The theremometor ranged from zero mark to two degrees below all day Friday and the wind was a perfect hurricane. This rendered the cold apparently even more intense than it was and made it difficult to keep any house in town in a comfortable condition. It was utterly impossible to keep the school buildings comfortable and the schools were closed at noon until Monday or the weather moderates. It was so cold in the court room that Judge Love suspended business and adjourned court, and now the jurors and witnesses here are unable to go home because of the inability to run trains. Some of the gas mains in the town are frozen and a number of business places were in darkness Friday night. This, however, was not a very great misfortune, as business is almost entirely suspended anyway in the vain endeavor of every body to keep warm.

The town was almost as completely blockaded on Friday as if it had been under siege of an invading army. Only two trains on the Bald Eagle road succeeded in reaching here, the others were annulled because of the difficulty experienced in running the mail train. Of course, as was announced on Friday nothing was even attempted on the Lewisburg and Snow Shoe branches, and nothing was accomplished on the Central Pennsylvania. The Bellefonte Central has the roughest experience of all the roads. In the morning an engine with one car was started for State College. There were a number of passengers among whom were some delegates to the Christian Endeavor convention. The train stalled in a huge drift above Filmore and, after repeated effort was unable to get either backward or forward. Another engine and crew was sent out to the rescue and, although it succeeded in reaching the blocked train, it was only to share the same fate. After futile attempts to get out, the fires had to be drawn from both engines. Word was then sent here for a relief train and a P. R. R. engine was sent to the rescue. It got as far as the Park where it stuck fast. There was a go. The passengers had remained in the car all day in the hope that they could in some way be extricated, or at least brought back to Bellefonte, and now that hope was gone. In the meantime the engine at the Park started on the return trip and was not able to reach Bellefonte until 8 o'clock. As to the passengers and train crews, they were taken in charge by farmers in that locality and made as comfortable as possible. At this writing there is no definite information regarding them.

The telephone and telegraph communication was seriously interrupted and, all in all, it has been the worst blizzard ever known, even by the "oldest inhabitant." The only consolation to be seen in the whole thing is a dispatch stating that a warm wave has started in the northwest and may reach here by next Tuesday.

### John Sample Hopkins.

With more than ordinary sadness we are called upon to announce the death of John Sample Hopkins, which event occurred at the home of his parents, Mr. and Mrs. William R. Hopkins, at Howard, Centre county, Friday morning, Feb. 1. His affliction was pulmonary consumption, and his age at the time of his death was 21 years, one month and 25 days.

The death of John Sample numbers the eighth of a family of ten children who have passed over the river. Two daughters only remain to comfort their parents and share in this most severe affliction. Several of those who have passed into the spiritual realm took leave of their tenements of clay during the tempoary residence of the family in a western home a number of years ago. The remains of the others rest beneath the sod depositories for the dead at or more nearly to the places of their birth, while their souls have taken flight that knows no bounds by space or time. Thus one by one the children all, save two, of these loving parents have passed beyond reach or communication on this material plane of life. It is an affliction the depth and extent of which only those who have experienced it can realize. Yet not without hope have they been called upon to take leave of their loved ones.

### Death of a Former Centre County Citizen.

On Friday, Jan. 25, 1895, Henry Hoy, age 66 years, of Mammoth Springs, Arkansas, died at his home. He was the only brother of Hezekiah Hoy, Benner township, this county, and also a brother of John Rishel, Sr., of Benner township; Mrs John Houser, of Benner township; Mrs. Sameul Franel, of College township; Mrs. Michael Corman, of Walker township; Mrs. W. C. Miller, of Spring township, and Mrs. Jacob Hartman, of Mt. Carroll, Ill., who died in August, 1892.

In October 1865, he moved from Centre Co., to Mt. Carroll, Ill., and was engaged a number of years in farming. Then he sold his farm, and moved to Newton, Iowa, and a few years later to his late home at Mammoth Springs, Arkansas. For years he was a great sufferer from asthma, but, since he had been a resident of Arkansas, he had never been the victim of a single attack of his old trouble. He leaves a wife and five children, five being dead, all residents of Mammoth Springs. During the month of June. 1893, his nephew, and nameeake, H. N. Hoy, of Benner township paid him a visit.

### Playing With Panic.

The business of the country is waiting on Congress for relief. With the currency challenged, no business is possible, and the currency will remain under challenge until the needs of the Treasury are met.

Instead of meeting these needs the Senate Finance Committee yesterday refused to report any measure providing for the sale of bonds. This was done by the Democratic vote aided by Senator Jones, of Nevada. It is only one more blow dealt to the business prosperity of the country by the Democratic party, but just at present no more serious blow can be dealt than by the refusal to issue bonds.

In its action the Senate Finance Committee stands where the Senate stood on the repeal of the act of July, 1890, better known as the Sherman bill. Nothing but the pressure of the business interests of the country forced repeal then. Nothing but the same pressure will force the issue of bonds now. The sooner this is known and acted upon by the business of the country the better. The Senate is risking panic by its own position and the action of its committee, and it will continue to put the business of the country in this risk until the business interests of the country make themselves heard.

As in August, 1893, the House is in advance of the Senate in furnishing relief. The bill presented by Mr. Thomas B. Reed yesterday combines enough to relieve the Treasury with all that can be passed through both houses of Congress. As Mr. Reed frankly said, the bill is not all that should be done, but it is all that can be done. The first step in the separation of the banking and business of the Treasury, in Mr. Reed's happy phrase, is taken by furnishing bonds to provide a gold reserve and three per cent. certificates to meet current expenditures while current revenues are insufficient. This is a step in the right direction, it is a sufficient step and it is the only step which the House will pass or the Senate adopt.

### No Frost.

There is no frost in the ground, the deep snow acted as a blanket and kept the ground from freezing during the intense cold of the last five weeks.

About Christmas, when the ground was bare, it was cold and the earth was frozen to a depth of four inches; the night after Christmas it began to snow and the ground has not been bare since, what frost was in the earth the last week of December has been drawn out by a deep covering of snow, since, and the ground is found mellow on digging under the snow.

Had the earth been exposed to the continued freezing weather of the past five weeks the ground would now be frozen hard as a rock, to depth of not less than four feet, causing much suffering, closing water stations, stopping machinery, and causing other inconveniences, which, happily, have been averted by nature in providing a cozy mantle of snow.

### Bellefonters, Take Notice.

At a recent meeting of the Bellefonte Board of Health the following resolution was passed:

WHEREAS, That in consideration of the heretofore proven fact that in the use of salt as a means of removing ice from the sidewalks and public highways, it is productive of throat and pulmonary diseases. Be it

*Resolved*, That the Board of Health of Bellefonte borough recommend, and it is hereby requested that the practice of using salt for the above purpose be discontinued. WM. SHORTLIDGE, President.

H. C. QUIGLEY, Secretary.

### A Pen and Ink Artist.

The famous "pen and ink man" who has been bothering the treasury for many years, is still getting in his deadly work. During the last year two treasury notes of his workmanship, for $100 each have turned up. Both are executed in his usual artistic style, being done wholly with pen and brush. Nobody would hesitate to take them. No clew has even been found to the identity of this extraordinary criminal, who seems to pursue his fad purely for the sake of recreation. He seems to produce two notes regularly every year, usually for $100 and they must take pretty nearly all his time.

### Party at G. H. Lyman's.

Last Saturday evening several friends of Mr. Hastings Lyman, who resides near Curtin's works, paid him a visit. The party was composed of treasurer John Q. Miles, G. W. Morrison, W. D. Dukeman, W. L. Smith, G. W. Rumberger, Harry Jackson, Dr. J. C. McEntire, J. W. Rightnour, J. L. Dunlap, John Noll and Andy Glenn and some of Mr. Lyman's neighbors made up the entire party. They all report having a good time, different games were indulged in but no dancing took place as they were nearly all Baptists and Presbyterians. Mrs. Lyman furnished them a feast of good things which some of them enjoyed to such an extent that they were unable to attend to business for two days afterwards.—*Horned*

### Christian Endeavor Convention.

The final sessions of the county convention of the Christian Endeavor societies were held at State College on Friday. Owing to the storm many delegates were unable to reach the College and the attendance was therefore necessarily small while the exercises and services were entirely changed from the original program. However, the meetings proved of unusual interest and were much enjoyed by all participating.

Coughs and Colds,
Sore Throat, Bronchitis, Weak Lungs, General Debility and all forms of Emaciation are speedily cured by
Scott's Emulsion
Consumptives always find great relief by taking it, and consumption is often cured. No other nourishment restores strength so quickly and effectively.

### Washington D. C.—Special Excursions via Pennsylvania Railroad.

There is probably no place that offers so much in the way of sight-seeing and other things of general interest at Washington, D. C. Apart from being the Nation's Capital, the magnificent Government Buildings, beautifully planned public parks, and the country through which one passes in journeying to Washington would make the trip an ideal one.

With the object in view of allowing every one to visit Washington at a very reasonable outlay the Pennsylvania Railroad Company has arranged for a series of special excursions to that city on February 21, March 21, and April 11, 1895. Excursion tickets, good within ten days, and permitting of stop-over in Baltimore in either direction within limit, will be sold at rates quoted below, good for use on dates above named on all trains except the Pennsylvania Limited. Special train of parlor and day coaches will be run connection with which will be made at Tyrone by leaving Bellefonte at 10,34 a. m. Rate for the round trip, only $7.25.

Passengers from branch points desiring to take the special train will use the following trains:—

Southwest Branch, Train No. 101, to Greensburg; Indiana Branch, Indiana Accommodation No. 82, to Blairsville Intersection; Martinsburg and Hollidaysburg, Accommodation Train No. 412, to Altoona; from Bedford, Train No. 4, to Huntingdon. Return coupons good on any regular train within the limit, except the Pennsylvania Limited.

Tickets on sale in Pittsburg, at Union Ticket Office, Fifth Avenue and Smithfield Street, and Union Station, and at all stations mentioned above. For full information apply to Thomas E. Watt, Passenger Agent Western District, 110 Fifth Avenue, Pittsburg.

### He Fooled the Preacher.

Cleveland, Feb. 13.—Rev. E. G. Laughlin, pastor of the Miles Avenue Presbyterian church, was a witness in the crimina court this morning against J. R. Hummelbaugh, charged with numerous forgeries. The minister said Hum elbaugh came to him in December and asked him to go to Ravenna to perform his wedding ceremony. He spoke of becoming a preacher. The two sang together at the preacher's home, and Hummelbaugh asked the minister to identify him at a bank so he could get a check cashed. The minister did this and now the man is being tried for forgery.

### A Destructive Mine Fire.

Nelsonville, O., Feb. 13.—The large coal hoppers of the Morris Coal company at Jobs, O., burned last night. These are the most extensive bituminous mines in the world, employing over 800 men. They were equipped with the most expensive machinery. The loss was $15,000, fully insured. The cause of the fire is unknown.

# MAJ. A. FRANK HUTCHINS.

The Great Band Leader Tells His Wife's Wonderful Cure by Dr. Greene's Nervura Blood and Nerve Remedy. Mrs. Hutchins adds her own Forceful Words About This Grand Medicine

BAND MASTER, MAJOR A. FRANK HUTCHINS.

As Sousa naturally fills the place of Gilmore, so the mantle of the great cornetist, Arbuckle, fell upon his pupil, Major A. Frank Hutchins, the leader and director of the American Screw Co.'s Band and Orchestra of Providence, R. I. Mr. Arbuckle said: "I know of no man who can produce a better tone and effect on the cornet than Hutchins." In both orchestra and band, Mr. Hutchins is distinctively a leader, and next to Sousa, undoubtedly occupies to-day the most prominent position in this country. As a musician and teacher he stands unrivaled.

In a recent interview at his home, 184 Charles St., Porvidence, R. I., Mr. Hutchins said:

"It is generally known that when my wife came here she was very poorly off with nervous prostration. To-day she is the picture of health, and I must say we owe it to that splendid medicine. Dr. Greene's Nervura blood and nerve remedy.

"I know of several others who have been cured within a short time by Dr. Greene's Nervura blood and nerve remedy, and the quicker people affected with any nervous difficulty commence to take this great medicine, the quicker will they be cured.

"But let my wife tell her experience, which everyone, who knows her, knows is true in every particular." Mrs. Hutchins said: "I consider it my duty to state that I was permanently cured of nervous prostration by using three bottles of Dr. Greene's Nervura blood and nerve remedy. I doctored for two years or more with several eminent physicians without receiving any permanent benefit.

"My husband insisted that I should stop employing a physician at once, and commence taking the Nervura.

"It improved my health at once. It quieted my nerves; I slept well; began to have an appetite; gradually grew stronger, and after using three bottles declared myself perfectly well.

"I give my consent to publish this, and I trust it may be the means of inducing others to try this most valuable and reliable remedy."

Prominent and well known people every where use and recommend Dr. Greene's Nervura blood and nerve remedy. Physicians prescribe it, and advise the sick to use it, for it is sure to give health and strength to those who are weak, nervous and debilitated. It cures headache, neuralgia rheumatism, insomnia, nervous debility, dyspepsia, constipation, female complaints, and liver and kidney diseases. It builds up the blood, invigorates the tired brain, strengthens the weak and shattered nerves. In fact, it makes those who use it well and strong.

Why waste time in trying uncertain and untried remedies, when here is a physician's prescription, a discovery made by the most successful living specialist in curing nervous and chronic diseases, Dr. Greene, of 35 West 14th St., New York City. If you take this medicine you can consider yourself under Dr. Greene's direct professional care, and you can consult him or write to him about your case, freely and without charge. This is a guarantee that this remedy will cure, possessed by no other medicine in the world.

MRS. A. FRANK HUTCHINS.

### Odds and Ends.

Russia has 22 national flags and France 21.

If all the eggs of fish came to maturity the ocean would be choked with their bodies.

One grain of gold after leaving the goldbeater's hands will cover 56 square inches.

A French explorer recently found an Assyrian loaf of bread supposed to have been baked 560 B. C.

The British government possesses the greatest number of distinct flags, excluding those from signal purposes the number being 26.

The vast region called Western Siberia forms less than one-fifth of all Siberia, but contains two-thirds of the population nearly 4,000,000 souls.

Ladies have never been allowed to represent a constituency in the house of commons, although they have been returned to parliament more than once.

The river Amu, the ancient Oxas of historical fame, has just been ascended by a Russian steamer almost to its source on the way east of Afghanistan.

Lord Napier won the Abyssinian war in 1867 without a single reverse, and Lord Wolsely conducted the Soudan campaign with equally unbroken success.

At the beginning of this century there were so many church festivals and holidays in Rome that it was said not two days in the week were left for labor.

In August, 1890, the C maneuver fleet signaled with search lights to the colliers, 70 miles away. This was some 500 miles south of the Azores, on a fairly clear night.

From an old cannon and 14 miles of discarded torpedo cable Lieutenant Colonel King has made the most powerful magnet in the world. It will resist a strain of 44,800 pounds.

The temperature of the earth advances one degree for every 51 feet of descent. It is supposed that at a distance of 30 miles below the surface metals and rocks are at a white heat.

### United States Internal Revenue Income Tax.

Taxes on incomes received from January 1st, 1894, to December 31st, 1895, inclusive, under the provisions of the Act of Congress in effect August 28, 1894, there shall be assessed, collected and paid upon the gains, profits and incomes, received from all sources in the Calendar year ending December 31st, 1894, by every citizen of the United States, whether residing at home or abroad, and from every person residing in the United States, a tax of two percentum on the amount so received over and above $4,000.00 There shall also be assessed, collected and paid a tax of two percentum on all the net profits or incomes, for the said calendar year, above actual operating and business expenses, of all corporations, associations, &c., doing business for profit in the United States.

Returns to be made to collectors on or before the 1st day of March, 1895. Penalty of 50 per cent. added for returns made after the first day of March, 1895. Blanks for making said returns can be obtained from John F. Brosius, Deputy Collector, at Lock Haven, No. 211 Water Street, by mail or otherwise, or by addressing Grant Herring, Collector of Internal Revenue, at Scranton, Pa. Unless returns are made before the 1st day of March, 1895, the penalty will be assessed, Taxes due and payable on or before July 1st, 1895.

Full instructions for making out the blank forms or returns are printed on the blank forms.

### Washington's Birthday.

### School Children

*will* eat sweetmeats and you can't prevent it. The first you know of it there is a headache; the child is bilious and something must be done. Use Ripan's Tabules, a remedy which is standard for such troubles.

—A Bellefonte school teacher has gotten into trouble for whipping a boy too severely.

—Itch on human, mange of horses, dogs and all stock, cured in 30 minutes by Woolford's Sanitary Lotion. This never fails. Sold by F. Potts Green, druggist, Bellefonte, Pa. v26-5-1y

## What is CASTORIA

**Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhœa and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.**

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

DR. G. C. OSGOOD, Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

DR. J. F. KINCHELOE, Conway, Ark.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

H. A. ARCHER, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

UNITED HOSPITAL AND DISPENSARY, Boston, Mass.

ALLEN C. SMITH, *Pres.*,

**The Centaur Company, 77 Murray Street, New York City.**

The greatest stock of Rubbers in the county of the very best make and at correspondingly low prices.

One lot men's good, heavy winter shirts worth $1, now 49c.

The best unbleached muslin 4, 4½ and 5c.

The very best bleached Muslin 6½ and 7c.

Tickings from 7c up.

Ladies' Corsets from 18c up.

We have no space to detail our entire stock but the above will give an idea of what we propose to do for the next 30 days. You will remember that we have sold goods cheaper the past season than has ever been known before. Now we have made the above reduction even from that basis. We must move our winter stock, as we propose to have a great line of Spring goods in due season.

# LYON & CO

BELLEFONTE, PA.

### To Represent Their Interests.

Pittsburg, Feb. 13.—Forty coal operators of Western Pennsylvania, met in Pittsburg to-day, and after discussing the many mining bills now before the legislature, appointed a committee to represent the interests of the bituminous coal operators at the state capital. The question of uniform rates for mining was also discussed, but no action taken.

—English Spavin Liniment removes all hard, soft or calloused lumps and blemishes from horses, blood spavins, curbs, splints, sweeney, ring-bone, stifles, sprains, all swollen throats, coughs, etc. Save $50 by use of one bottle. Warranted the most wonderful Blemish cure ever known. Sold by F. Potts Green, druggist, Bellefonte, Pa. v26-5-1y

### Progress in the Irwin Case.

Pittsburg, Feb 12.—Fairly good progress was made to-day with the trial of Discretionary Pool Operator George M. Irwin, charged with false pretenses. Chances now favor a much shorter trial than was expected. No startling evidence was given today. The prosecution rested and the defense introduced a number of witnesses, who were intended to sustain the minor points of their case. To-morrow the Chicago brokers who transacted business with Irwin will testify, and, if they get through before the day is over, the defend ant himself will probably take the stand.

### Frozen to Death.

Johnstown, Pa., February 13.—The bodies of two boys were found along the tracks of the Pennsylvania road west of here to-night. They were frozen to death. The identity of the bodies has not been fixed but they are supposed to be those of two sons of John Cauffield of this city.

The lads, aged 10 and 12 years, were sent to school yesterday, but went skating and afterwards concluded to take a tramp fearing to return home after playing truant. Mr. Cauffield searched all night and today for his missing sons but up to to-night had been unable to find them.

### New Time Card on C. R. R. of Pa.

On Monday, February 18th, a new time table will go into effect on the Central R. R., of Penn'a. No changes are to be made in the early morning or late evening trains. Train No. 3, that on the present card leaves Bellefonte at 11.20 a. m., will not depart until 4.05 p. m., reaching Mill Hall at 5 20 p. m., making close connection with Beech Creek west-bound train. Returning Train No. 4 is scheduled to leave Mill Hall at 5.40 p. m., reaching Bellefonte at 6.50 p. m.

### A Few Useful Suggestions.

The right way to roll your umbrella is to take hold of the ends of the ribs and the stick with the same hand and hold them tightly enough to prevent their being twisted while you twirl the cover around with the other hand. It is twisting the ribs out of shape around the stick and fastening them there that spoils most umbrellas.

Use soapy water when making starch; the clothes will have a glossier appearance and the irons be less likely to stick.

To remove ink stains from the hands, rub the spots with the wet head of a common parlor match.

—Although the railroads are clear of snow, the trains all came in late to-day, as usual.

### Prices of Wall Paper at S. H. Williams'.

Brown Backs—4, 5 and 6 cts. per piece.
White Backs—6, 8 and 10 cts. per piece.
Golds, Glimmers, and Embossed Golds 12 to 50 cts. per piece.

—Smoke "Cubana," a full Havana filled hand-made 5c. cigar. Equal to the best. H Otto, under First National bank, Allegheny street.

### BLIZZARDS STILL TO COME.

**Foster Says That the Severest Storms of the Winter Will Soon be Here.**

St. Joseph, Mo., Feb. 11—My last bulletin gave forecasts of the storm wave to cross the continent from Feb. 12 to 16, and the next will reach the Pacific coast about the 16th, cross the western mountain country by close of 17th, the great central valleys from 18th to 20th and the eastern states about the 24th.

This storm wave will initiate a most remarkable period of weather and the country will experience almost everything from the tornado to the blizzard. Extremes of weather in nearly every respect may be looked for, but more cold than heat, more rain and snow and sleet and hail than drought.

In the north particular attention should be given to the protection of live stock during the last half of the month, and in the south the early crops particularly of gardeners, will suffer from cold rains, select and hail. Tornadoes may be expected in the southern states and severe cold waves in the north. A cold wave of some importance will also cross the continent from 9th to 11th.

The warm wave will cross the western mountain country about the 16th, the great central valleys about the 18th, and eastern states about the 20th. The cool wave will cross the western mountain country about the 19th, the great central valleys about the 21st, and the eastern states about the 23d, and will give the eastern states a blizzard.

The unusual weather of the 1895 crop season will take farmers and others by surprise, especially those who do not carefully read and study these weather bulletins. Intelligent farmers and dealers will study the future of the weather, the former planting that which will best succeed in yield and price, and the latter arranging his stock in trade to correspond.

**Relief in Six Hours.**

Distressing Kidney and Bladder diseases relieved in six hours by the "NEW GREAT SOUTH AMERICAN KIDNEY CURE." This new remedy is a great surprise on account of its exceedingly promptness in relieving pain in thebladder, kidneys, back and every part of the urinary passages in male or female. It relieves retention of water and pain in passing it almost immediately. If you want quick relief and cure this is your remedy. Sold by F. Potts Green, Bellefonte, Pa. v26-5-1y

**Train Robbers Send Word.**

San Francisco, Feb. 11.—The two Texas cowboys who robbed the Southern Pacific express train near Wilcox, Arizona, on January 30, and secured $10,000, are camped in the Chiricahua mountains, from which retreat they are expected soon to sally forth and loot another train. They have two companions, are heavily armed and know all passes and trails in these inaccessible mountains. A letter received by Chief Detective Noble, of Wells, Fargo & Co., was slipped into the mail car near Tucson recently. It reads:

In Camp, Feb. 2.—We are comfortably located and all right for funds, thanks to Wells, Fargo & Co.

(Signed.) W. S. & Co.

This signature stands for Grant Wheeler and Joe Sizer, alias George, the two principals in the Wilcox train robbery.

**NEW DISCOVERY.**

Among the many discoveries of the present age, none rank higher than the new metal silvereen, which owing to its great durability and cheapness is bound to take the place of silver in the manufacture of fine tableware.

Silvereen is a beautiful white metal, will not tarnish or rust, and all goods made from it are warranted.

We want every one to have a chance to compare silvereen with silver, so for the next sixty days we are going to give away one half dozen Crown Silver Tea Spoons *Free*, to every person who will send for one of our Terry's Silvereen sets, containing six Tea Spoons, one Sugar Shell, one Butter Knife. If at any time the Silvereen goods do not prove satisfactory, return them and your money will be refunded. Remember we give you the Silver Spoons.

Price of Silvereen set, $2.00. f 7-2y
TOLEDO SILVER CO., TOLEDO, O.

**Took the Wrong Medicine.**

Williamsport, Pa., February 12.—Miss Lilian E. Jones, senior member of the millinery firm of L. E. Jones & Co. was chatting gayly with a customer at 4 o'clock this afternoon when she remarked that she had a cold and would take a dose of cough medicine. She walked to the rear of the store and in the dim light took down a bottle and poured out a draught. She swallowed the liquid, uttered a shriek, dropped to the floor unconscious, and expired in a few minutes. She had swallowed cyannide of potassium in mistake, a bottle of which stood on the shelf near the cough medicine. Miss Jones was a popular young lady and one of the foremost milliners of this city.

**Found Dead in a Snowdrift.**

Lyons, N. Y., Feb. 11.—Mrs. Davis, a school teacher in the Bernet district, was found dead in a snow drift today not far from the school house. She remained at the school all night last Thursday, owing to the severe weather, but evidently started home Friday when the blizzard was most severe, and no pupils could get to the school.

Mrs. Davis came here three months ago and little is known of her.

**Fatal Quarrel Among Polanders.**

Scranton, Pa., February 10.—As a result of a brawl among Polanders, Felix Dawidzisk, of 1019 South Wyoming avenue, was last night shot and instantly killed by either John Wismewski or Anthony Jakofski, both of whom are still at large. Four men and one woman have been arrested and are detained as witnesses. The people who are supposed to know who did the shooting are very reticent, but one man says he saw John Wismewski fire the shot and then Dawidziak dropped. This witness is ready to swear that Wismewski wanted to shoot an unknown man with whom he had been quarreling and Dawidziak caught him and held him back. Wismewski wheeled toward the peacemaker and shot him dead.

This story is partially corroborated by Wismewski's sister who says her brother came running into her apartments in a high state of excitement and borrowed $10. Her husband came running and charged Wismewski with the murder. Wismewski made a hasty denial and then ran from the house. The police have taken precautions which will render the escape of the prisoner impossible.

**"A Word to the Wise is Sufficient."**

I suffered terribly from roaring in my head during an attack of catarrh, and became very deaf, used Ely's Cream Balm, and in three weeks could hear as well as ever.—A. E. Newman, Graling, Mich.

One of my children had a very bad discharge from the nose. Physicians prescribed without benefit. After using Ely's Cream Balm a short time the disease was cured.—O. A. Cary, Corning, N. Y.

Price of Cream Balm is fifty cents.

**Pullman Exonerated.**

Chicago, Feb. 13.—George M. Pullman this afternoon appeared before Judge Grosscup, in chambers, and was exonerated from the charge of attempting to evade the order of the court. He stated that he was not in his office when the bailiff called with the subpoena, but was in Vice President Wickes' office, across the way. Later in the afternoon of that day he left for New York, not to avoid the order of the court, but because he had already made all arrangements to do so.

**The Soldiers Held Blameless.**

New York, Feb. 13.—A jury, impaneled by Coroner Kene, of Brooklyn, at the inquest on the death of Thomas Carney, who was shot January 23 by a militiaman of the Thirteenth regiment, while standing on the roof of a house during the street car riots, rendered a verdict that Carney died from the result of a bullet wound inflicted by the militia in the strict discharge of its duty.

The jury also exonerated the soldiers from all blame and responsibility for Carney's death.

**The Worst Case the Doctors Ever Saw**

**Hood's Sarsaparilla Perfectly Cured**

"C. I. Hood & Co., Lowell, Mass.:

"Dear Sirs:—I wish to testify to the great value of Hood's Sarsaparilla. For some time I had been troubled with scrofula, which early last winter assumed a very bad form.

**Sores Appeared on My Face**

and hands and gradually increased in number until they reached to my shoulder. The doctors said it was the worst case of scrofula they ever saw and also went so far as to say it was incurable. I tried ointments and other remedies but to no avail. A friend recommended Hood's

## Hood's Sarsaparilla Cures

Sarsaparilla, and although I was completely discouraged, as a last chance I resolved to give it a trial. After taking one bottle I noticed the sores had commenced to heal. After the sixth bottle

**They Were All Healed.**

I continued to take it, however, until I had used nine bottles, and now I am perfectly well." MISS KATIE ROSENGRANT, Ulster, Penn.

**Hood's Pills** are prompt and efficient, yet easy in action. Sold by all druggists. 25c.

### THE SKELETON APPEARS.

**All Was Not Happy in the Hayward Family By Any Means.**

Minneapolis, Minn., February 12.—The Hayward family skeleton made its appearance to-day. It was made evident from Adry Hayward's testimony that for a long time the two brothers have been at variance with each other and to-day Adry was questioned regarding numerous quarrels. Throughout to-day's examination Mrs. Hayward, mother of Adry and Harry, sat beside Mr. Erwin and prompted him during the cross-examination. Mr. Erwin expects to show Adry insane and also proposes to use his brother, Dr. Thaddeus Hayward, as a witness. It is also proposed that Adry will be shown to be the man who made the trip with Blixt out on the Excelsior road where Miss Ging was murdered.

Once when Mrs. Hayward had been prompting the defense and the question came from Erwin by accident, Adry denied with the withering emphasis and the mother shook her head violently as though to say that he lied.

"Don't shake your head, mother," he cried, saying his voice in a strained tone, "It is the truth and you know it. I will tell everything—all."

"Tell it—tell it all," replied Mrs. Hayward. "Tell everything you can."

Adry Hayward will be able to prove an alibi in case charges of murder are preferred against him by the defense, but only apparently by members of his own family. An effort will be made to discredit his evidence, it is said, and to show that at the time Harry Hayward is alleged to have been taken to Blixt on the Kenwood boulevard, Adry was there and Harry in another part of the town.

Mr. Erwin tried to show that Adry had been promised immunity from punishment if he would testify against his brother, but the court would not allow the question nor that of another witness who remained in the custody of an officer, though not in jail.

**Deafness Cannot be Cured**

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the eustachian tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

F. J. CHENEY & Co., Toledo, O.
Sold by druggists, 75c. 1-3-4t

**That Income Tax.**

Washington, February 12.—If the demand for individual income tax blanks is any indication of the number of actual returns that will be made by taxpayers coming under its provisions, the amount of money that will be received from the income tax will be much larger than first estimated.

Commissioner Miller at first ordered 300,000 corporation blanks printed and 300,000 individual blanks. The corporation blanks printed will be sufficient, but all the individual blanks have been exhausted and a new supply of 300,000 is now being run off at the government printing office. In some sections, notably in New York city, the collector of internal revenue has not been able to keep up with the demand. All information received at the treasury indicates a purpose on the part of the people affected to comply with the law.

**Tedious Suffering Finds Relief.**

Haverhill, N. H.—Many physicians have pronounced as incurable, diseases of the skin and blood. Mrs. Hodsdon of this place abandoned the old school method and used Dr. Kennedy's Favorite Remedy and was cured.

In October, 1890, and for a year after, Mrs. Hodsdon suffered from a diseased ankle bone. She had always been troubled with Salt Rheum which aggravated the diseased limb. Prescriptions and medicines of all sorts were used, qut with no benefit. Dr. Kennedy's Favorite Remedy was tried, and it drove the poison out of her blood, healed the ulcerous sores, and restored Mrs. Hodsdon to health and strength.

Favorite Remedy cleanses the blood, and strengthens the nerves. In cases of scrofula and salt rheum, it cures where all else fails.

**Remembered His Benefactor.**

Scranton, Feb. 12.—Dr. Allen Norton Leete, editor of the Sunday NEWS, has been notified that he has been bequeathed $50,000 by the will of the late Henry B. Cary, of Los Angeles, California. Back of the bequest is a story of an unpaid debt that brought the lender ultimately a competence for life. In 1862 Dr. Leete loaned Cary $500. At that time both men lived in Newark, New Jersey Cary emigrated California and made a fortune but he never during his life time repaid Leete his money. When he died, not long since, his will was found to contain a clause acknowleging his debt to Leete and stating that the $500 was the foundation of his fortune and in consideration of this he bequeathed him $50,000.

**A Rare Opportunity.**

## ST. JACOBS OIL IS THE KING CURE FOR CURES BURNS LUMBAGO

### THE QUEEN LANE RESERVOIR.

**Attorney McCullen Files the Bill in Equity Yesterday.**

Philadelphia, Feb. 13.—After the sensation caused by the failure of W. T. Andrews to establish a defense to his libel of Filbert, Porter & Company, the Queen Lane reservoir contractors, his plea of guilty and sentence to day a fine of $1,000 in default of which he now stands committed, it was given out that an effort would at once be made to substantiate his charges before the civil courts through a bill in equity, praying that the city be enjoined from the acceptance of the reservoir, and from making any further payments thereon.

This afternoon the promised bill in equity was filed by Attorney Joseph P. McCullen on behalf of Herbert Welsh, et. al., and against Mayor Stuart, Director of Public Works Windrum, and Chief Ogden, of the Water Bureau. It prays that the Mayor be ejected from accepting the Queen Lane reservoir from the contractors, Filbert, Porter & Company, until they shall remedy certain alleged defects, and that the other officials be restrained from approving any bill or order for further payment of money to Filbert, Porter & Company on account of work done on the reservoir.

**Terry's Silvereen.**

Among the many discoveries of the present age, none rank higher than the new metal silvereen, which owing to its great durability and cheapness is bound to take the place of silver in the manufacture of fine tableware.

**A Witness Missing.**

Pottsville, Feb. 8.—This morning Lawyer William Wilhelm, the solicitor of the auditors of the county, who prosecuted the recent investigation into the affairs of the county almshouse received a telegram from William O'Brien, of Philadelphia, announcing that his sister Lizzie, with whom Steward Hartman had been charged with having improper relations, had left his house last evening with a Mrs. Burke, and had not returned up to this morning. Mr. Wilhelm expresses the belief that the girl had been spirited away so that she could not appear against Hartman as a witness at the next term of criminal court, to answer the charge of adultery.

**Simon Must Testify.**

Philadelphia, Feb. 13.—Judge Finletter in Common Pleas Court this afternoon issued an order directing Common Councilman Frederick C. Simon to disclose to the Councilmanic Investigating Committee the name of the person for whom, as an attorney, he purchased six shares of the stock of the Mutual Automatic Telephone Company from the administrator of Hugh T. Pigott, a late Common Councilman. This will, it is believed, have an important bearing upon the investigation of the allegation that $362,000 worth of the stock were distributed among councilmen and others by the company for the purpose of securing privileges.

—For the benefit of everybody we will say that the several tickets as now printed in the Daily News are the correct borough nominations. It will be noticed as councilman in the South ward on the Republican ticket the name of W. R Brachbill appears.

## DR. KILMER'S SWAMP-ROOT

TRADE MARK.

THE GREAT KIDNEY, LIVER AND BLADDER CURE.

**Dissolves Gravel**

Gall stone, brick dust in urine, pain in urethra, straining after urination, pain in the back and hips, sudden stoppage of water with pressure.

**Bright's Disease**

Tube casts in urine, scanty urine. *Swamp-Root* cures urinary troubles and kidney difficulties.

**Liver Complaint**

Torpid or enlarged liver, foul breath, biliousness, bilious headache, poor digestion, gout.

**Catarrh of the Bladder**

Inflammation, irritation, ulceration, dribbling, frequent calls, pass blood, mucus or pus.

At Druggists 50 cents and $1.00 Size.
"Invalids' Guide to Health" free—Consultation free.
DR. KILMER & Co., BINGHAMTON, N. Y.

**Change of Time on Beech Creek.**

On Monday, February 4th, the Beech Creek Railroad put into effect a new time card. The train which formerly left Williamsport at 4.00 o'clock p. m. now leaves at 4.35, arriving at Lock Haven at 5.35, Mill Hall, 5.40, Philipsburg, 8.05, Clearfield, 8.30 and Mahaffey, 10.00 p. m. The train which formerly left Mahaffey at 5.30 a. m., now leaves at 7.00 a. m., arriving at Clearfield at 8.35, Philipsburg, 9.45, Mill Hall, 11.20, Lock Haven, 11.26 a. m. and Williamsport, 12.25 p. m.

The excellent through sleeping car arrangement between the Clearfield region and Philadelphia, via Beech Creek route, is continued under the new schedule.

Copies of the new time tables can be secured from all Beech Cree Railroad ticket agents.

**Enough to Kill Ten Persons.**

Lancaster, Feb. 13.—Enough arsenic was found in the stomach of Mrs. Charles Carroll to kill ten women, says Professor Zefnedt, who made a chemical analysis of it. The woman died under peculiar circumstances at her home in Martie township in December. She was evidently poisoned and was found dying by her husband, who had been absent from home.

## The Universal Medicine Company.

The following remedies for the diseases indicated are all of well known Standard and have been in use, by the leading specialists of the world for many years. They are all of tried value and their use will give great satisfaction. Their action is gentle, yet forceful, producing the best results. You have thus the advantage of the remedies which are used by the most eminent practioners, at a very small cost.

These remedies have given universal satisfaction.

| List of Numbers. Cures. | Price. |
|---|---|
| 1 Headaches, Sick-headaches | 25c. |
| 2 Fevers, Congestions, Inflamations etc. | 25c. |
| 3 Coughs, Colds, Bronchitis | 25c. |
| 4 Dyspepsia, Heartburn, Stomach Pain | 25c. |
| 5 Diseases of the heart, Weakness, Palpitation | 25c. |
| 6 Hoarseness, from Colds, Singing or Speaking | 5c. |
| 7 Constipation, Chronic or otherwise | 25c. |
| 8 Rheumatism or Rheumatic Pains | 25c. |
| 9 Catarrh, Cold in the head, etc | 25c. |
| 10 Colic | 25c. |
| 11 General Debility, Physical Weakness | 25c. |
| 12 Nerve Diseases, requiring nerve tonics and stimulants | 25c. |
| 13 Worms, Fever caused by them | 25c. |
| 14 Neuralgia, Neuralgic-Pains | 25c. |
| 15 Malaria, Migrane | 25c. |
| 16 Diarhœa, Dysentery | 25c. |
| 17 Whites excessive flow | 25c. |
| 18 Scrofula, Blotches, or Pimples in the face caused by disordered blood | 25c. |
| 19 Kidney Diseases | 25c. |
| 20 Suppression or Painful Periods | 25c. |
| 21 Sore or Weak Eyes | 25c. |
| 22 Dropsy | 25c. |
| 23 Sea Sickness | 25c. |
| 24 Ulcerated or Sore Throat | 25c. |
| Special. | |
| 5 Piles, blind, bleeding or itching | 50c. |

Any of the above remedies will be sent postpaid on receipt of the price. Address:
THE UNIVERSAL MEDICINE CO. Chicago, Ill.

**The Golden Star**

## Gold Mining Company

OF MONTANA.

Capital $300,000 divided into 300,000 shares of $1 par value each.

Non-assessable forever.

This company owns two gold mines located in a county which produced $40,000,000 in gold in six years. Has 45 acres of virgin land. Has 500 feet of underground work in shape of shafts and tunnels. Has ore in sight worth $100 per ton. Has assays from $25 to $1,500 per ton. Has shipped ore netting $36 per ton. Has such a small capitalization, only 300,000 shares and not 2,000,000 shares as other companies.

The company intends to sink a shaft through this rich $100 ore vein to a depth of several hundred feet, in order to be able to produce largely for the benefit of the stockholders which will get this profit in large monthly dividends. Hence the company offers a small amount of its stock at the extremely low price of 40 cents a share.

These shares are the investment on the financial market to-day and are better than Government Bonds as they will pay bigger interest.

Write at once for reports and other literature. Address,

**The Golden Star Gold Mining Company.**
No. 1505 Schiller Theatre,
Chicago, Illinois.

## COULDN'T FIND PULLMAN.

### It Was Expected That He Would Take the Stand at the Debs Trial.

Chicago, Feb. 6—It was expected that George M. Pullman would take the stand at the opening of the Debs trial this morning but the marshal reported he could not find him. It is said he left for Florida.

Eugene V. Debs was the principal witness of the day. He told the story of his life from the time he was 14 years of age up to the organization of the America Railway union and his election as its president at a salary of $9,000 a year.

Mr. Debs said the object of the organization of the American Railway union was to unite warring factions of railroad employes and make their cause a common one against the General Managers' association. When he first heard of the troubles at Pullman Mr. Debs sent Vice President Howard there and told him to avert the threatened strike if possible.

Judge Grosscup himself took the witness in hand and interrogated him concerning the condition of the Pullman employes.

Debs was the only witness and his testimony was not concluded at the adjournment of court. He related the proceedings of the American Railway union convention in detail. He said that during the continuance of the strike he at no time was guilty of any violation of the federal law, nor did he at any time, from the first meeting of the American Railway union until the end of the strike, countenance any act of violence or advice any one to violate the law of the nation, the state laws or any city ordinance. He emphatically stated that at all meetings his words were to the effect that under no circumstances must mail trains be interferred with. Before court adjourned Attorney Gregory, for the defense, requested Judge Grosscup to order an investigation concerning the constable's inability to serve a subpœna on George M. Pullman.

### Proposed Bond Issue.

Washington, Feb. 6.—Messrs. Belmont and Morgan and the other New York financiers, who have been here for the past few days consulting with the president and Secretary Carlisle on placing the contemplated bond issue, have returned to New York. Mr. Morgan, it is said, offered to place all the hundred million bonds abroad, but wanted a rate of interest that would approximate 4 per cent. annually. He also wanted the whole issue and is quoted as saying that he would only take it on the basis specified, the whole issue or none.

Secretary Carlisle is willing, it is said, to issue a 4 per cent. bond running thirty years, but wishes to put them on a 3 per cent. basis. Some of the other New York bankers and some members of the administration, it is stated, want to place part of the loan at 4 per cent. in this country and make the denomination of the bonds sufficiently low that they may be subscribed for by the people generally.

### Pathetic Story of Cold and Privation

Williamsport, Feb. 6.—A pathetic story comes from Cogan valley, this county, where three children ranging from 6 to 2 years, were found alone in their home with the body of their dead mother, having survived cold and privation two days and nights. Moses O'Hart, a woodsman, left his home on Sunday for a lumber camp, and returned last evening to find his wife dead in a chair, and the almost frozen and famished children huddled together in a bed. Mrs. O'Hart had died on Sunday soon after her husband left, and the children had remained alone and unattended until the father's return. Most of the time the temperature was 15 degrees below zero. The 6-year-old girl ran to the door once to hail a passing sleigh, but her weak voice was not heard by the occupants. The woman died from heart disease.

### Lawlessness in Indian Territory.

Muskogee, I. T. Feb. 6.—For two weeks Deputy United States Marshals West, Davis and Smith have been in pursuit of "French" and "Verdigris Kid," two desperadoes. Yesterday the officers were ambushed near Briartown, thirty miles east of here, by the outlaws, and West was killed at the first five. Smith and Davis escaped. West's three half breed sons have now taken up the trail and will either kill "French" and the "Kid" or be killed themselves.

### Coal Miners are Destitute.

Washington, Pa., Feb. 6.—The stories in regard to the destitute condition of Washington county coal miners have been officially confirmed. At Venetia the miners and their families, to the number of 100 persons, are in a deplorable condition, and unless quickly supplied, will suffer seriously from starvation. The general business depression and labor troubles have contributed to their precarious conditions. The coal operators permit the use of their houses rent free, and allow the miners to supply themselves with fuel. They are in immediate need of food and clothing.

### Playing Cupid Pays Well.

New York, Feb. 7.—A committee of the board of alderman to-day investigated the charges by Alderman Ware that corruption existed in the marriage bureau at city hall, where many poor people go to get married, as they can be wedded there by an alderman free of charge. Several witnesses testified that they had been compelled to pay $5 before they could secure a certificate. This money was paid to two politicians, Fitzgerald and VanPelt, who are known as cupids by person of their constant attendance at the marriage bureau. They held no office in the bureau, but were permitted to be there because they enjoyed a "pull."

"Cupid" VanPelt was examined and admitted that he and Fitzgerald made over $1,200 a year each, but they declared that they never attempted to coerce anyone to paying and took only what was offered.

### An Electric Car Becomes Unmanageable.

Easton, Feb. 7.—In the midst of a blinding snow storm this evening an electric car of the Easton Transit company became unmanageable while descending a steep grade on New street, South Easton, and gained frightful speed. Motorman Texter was powerless with the front brake and ran through the car to the rear to get to the rear brake. The car rushed on, and the single passenger inside jumped and escaped injury. Conductor Folkenson went out on the front platform just as the car reached the foot of the hill at the Lehigh Valley railroad depot. There it met a snow plow, which was struck, Folkenson being caught between the broken platforms of the cars. He was taken out of the wreck terribly cut about the head and badly bruised, and was removed to the Easton hospital.

### Treasury Receipts Justify Expectations.

Washington, Feb. 7.—The treasury receipts from customs continue to justify expectations from the new tariff bill. They began to increase last November and have kept steadily up since that time. At the present ratio of receipts to expenditures, the month of February will about balance, although the excess of expenditures over receipts is now $2,000,000. Most of the heavy expenditures are made in the first half of the month. Expenditures of the treasury do not take into consideration the fixed charges on account of the sinking fund, which is in arrears about $150,000,000, beginning as far back as Secretary Windom's time and being nored by all subsequent secretaries of the treasury since, because of lack of funds.

### Made a Narrow Escape.

Wilkesbarree, Pa., Feb. 7—Five passengers on a trolley car running between this city and Nanticoke had a narrow escape from death to-day. The car was coming from Nanticoke to this city and had nearly reached the Pennsylvania railroad crossing at South Wilkesbarree, when a passenger train was sighted. The motorman, Andrew Elliott, applied the brakes but they would not hold on the slippery rails and the current failed on the reverse lever. The passengers made a wild rush, the last, an old lady, who jumped off the platform as the locomotive struck the car. The passengers were all shaken up but none seriously hurt.

### Temperance Petition.

Chicago, Feb. 7.—The program of the grand convocation of the W. C. T. U., which is to be held in Washington D. C., February 15, 16 and 17, in connection with the presentation of the great petition to Congress in behalf of the temperance movement has been issued. Morning and evening sessions will be held each day, and at each meeting addresses will be made by women prominent in W. C. T. U. work. The convocation will be brought to a close Sunday evening, February 17, when Lady Henry Somerset and Mrs. Clara C. Hoffman will speak.

## DIPHTHERIA

Too many homes bear this fear-inspiring placard, denoting the prevalence of that most insidious and dreaded of all diseases—Diphtheria.

It is to-day a recognized fact among the best practitioners that nine out of ten cases formerly considered hopeless may be brought to a happy termination by the use of that great original raw food product,

**Bovinine.**

This great blood-generating, life-maintaining, strength-developing, and flesh-producing product of lean, raw meat, contains the greatest amount of life-preserving qualities in the least possible bulk of any preparation known.

In cases of Diphtheria, Bovinine has special advantages. In this disease, as in others, the rapidity with which it is assimilated gives to it a preference over all other foods, passing, as it does, into the system immediately, without causing the digestive organs to perform any labor. And considering the fact that the lesions in the throat prevent the swallowing of solid food, it becomes an absolute necessity. In the worst cases, where even liquids cannot be taken by the mouth, Bovinine

**Saves Life**

by being used as an injection. Above all, Bovinine is in itself a germicide, and in all such diseases as Diphtheria, caused by microbes, it not only performs its greatest mission of maintaining life, but antidotes the existing bacilli.

Bovinine has done wonders in thousands of cases of Diphtheria. When your doctor uses it you may cease to worry, and be assured of a speedy recovery. To neglect its use may mean years of remorse in the feeling that some loved one might still be with you if everything possible had been done. Bovinine is sold by all Druggists.

## SLIM ATTENDANCE OF SENATORS.

### The Diplomatic Bill Before the Upper House Up to Adjournment Hour.

Washington, Feb. 7.—Arctic weather was experienced in Washington to-day, and, consequently, there was a very slim attendance of senators when the chaplain delivered morning prayer, and it was so dark that it was found necessary to light the gas. Personal altercations between Senators Mitchell, of Oregon, and Harris, of Tennessee, a few days ago, were recalled to-day by the action of Mr. Mitchell in presenting the report which he had withdrawn on that occasion, and in making the explanation of it which he had been prevented from doing. The report and the remarks had reference to the claims for sugar bounties, and the effect was simply to leave the matter—amounting to some $8,000,000—to be passed upon by the committee on appropriations and the senate. At the close of the day's session, suitable expressions of regret for the unpleasant occurences alluded to were made by both the senators, and a good feeling between them was restored.

The diplomatic bill was before the senate up to the hour of adjournment, when it went over without action on the item for the construction of a telegraphic cable between the United States and the Hawaiian islands.

Speeches were made by Senator Higgins, of Delaware, in favor of the item, and by Senators Palmer, of Illinois, and Caffrey, of Louisiana, against it. Mr. Palmer recited a sentence from Mr. Teller's speech of the day previous, "Oh, for an hour of Marcy, Clay and Webster," and exclaimed "Oh for an hour of Charles Sumner, who would not consent to the annihilation of the negro republic of San Domingo. Is there no one who will now speak for the helpless people of Hawaiian islands, who have been robbed, and who are now governed by the agencies that are as despotic as can be imagined?"

The Senate at 6:50 adjourned until to-morrow.

### Pennsylvania Railroad's Tours "To the Golden Gate."

Apart from the rare pleasure of visiting new places and witnessing novel scenes, the Pennsylvania Railroad Company's tours to California will prove better educators than any number of lectures or books on travel. The immense scope of territory traversed will expand the ideas of all tourists, indelibly impress upon their minds enlarged views of this mighty Union and its vast possessions, and they will return to their homes prouder than ever of the great land whose borders are protected by the Stars and Stripes.

These tours have been arranged under the company's renowned personally-conducted tourist system, and magnificent Pullman trains will leave New York and Philadelphia on February 20 and March 20, 1895.

Detailed itinerary will be sent on application to Tourist Agent, 1196 Broadway, New York, or Room 411, Broad Street Station, Philadelphia.

### They Voted "Nay."

When the bill increasing the salary of superintendent of banking from $4000 to $6000 a year and increasing the number of clerks came up before the legislature five Republicans voted against the bill on general principle. Among them were Messrs Womelsdorf and Curtin, the members from Centre county. The bill carried, but all the same those who supported it will have some trouble to excuse their position when they go home and meet their indignant constituents. We are glad the Centre county members had the courage and manhood to array themselves against the bill. The salary was high enough, and if Mr. Gilkeson didn't want the place at that salary there were plenty as good and better men who would cheerfully take it. This is no time to increase salaries. Better cut them down to suit the times.

*Home and Country*, Corporal James Tanner, Editor, for February, is ablaze with illustration, and for interesting text matter it is unexcelled.

The frontispiece, entitled "My Valentine" is decidedly unique, the subject timely and attractive. The illustrated articles comprise: "Cups and Saucers," a something of great interest to collectors of bric-a-brac, both amateurs and experts, by Vincent L. Hopper; "Tupa, the Cayapas," a story of Ecuador, founded on facts, by Captain Ed. Charton; "Milord and Lady The Captain's story" by Harry Orme; "Denizens of the Winter Woods," by John Fairfax; and "The Rehabilitation of Valley Forge," by Charles Burr Todd.

Published by Jos. W. Kay, at 53 East 10th Street, New York. Subscription $1.50 a year.

### Interesting State Notes.

Miss Mary Dana, aged 84 years, died at Norristown last Saturday.

Lehighton has practically raised $35.000 the required amount to secure the location of a silk mill.

Out of a family of ten people people, living in Lebanon, six are confined to their beds with scarlet fever.

Mrs Mary Cooper Allison, of Philadelphia, has donated $1,000 to the law school of Dickinson college.

The Young Men's Christian association of Lancaster is endeavoring to erect a new hall in that city.

There are over 100 less applications for liquor licenses this year in Luzerne county than were made in 1894.

University extension lectures are not as popular this winter as they were in other like seasons in every part of the state.

Sullivan county is to have two farmers' institutes this year—one at La Porte, Feb, 12, and one at Dushore, Feb. 13.

All applications for liquor licenses are bitterly opposed in the courts of Indiana county by the temperance men of that region.

Not over 140,000,000 feet of logs will be put into the Williamsport boom the coming spring, a large decrease over that of last year.

There is a lively crusade in most of the cities of the state against the service of free lunches in restaurants, beer saloons and taverns.

Mr. James E. McLean, of Shippensburg has been elected first vice president of the Tanners' Mutual Insurance companys of Pennsylvania.

The Bethany Evangelical congregation of Allentown, is in the progress of the most successful revival of religion ever carried along in that church.

The Pittsburg and Lake Erie ship canal guarantee fund is above the $27,000 mark and work will be started in earnest on the project in the spring.

There is not a city outside of Philadelphia, Pittsburg and Allegheny, in which the people are entirely satisfied with the system of street improvement.

Those in charge of Salvation Army barracks in the eastern cities and towns of the state report a winter of active work with encouraging results.

The bogus check business is again flourishing in many of the rural cities of the state, and, however the frequent warning, on the subject, merchants are easily duped with them.

There is a rivalry for the presidency of the Lehigh County Agricultural society equalling that which occasionally enters the fight for the office of chief magistrate of the United States.

John Boner, of Summit Hill, Lehigh county, who signed articles of agreement to spar William McCarthy, wants it known that McCarthy is a bluffer, as the latter refuses to meet him.

### Improve the Rural Schools.

It is a sound rule in dealing with public money raised in any state or country for the purpose of general common school education that the tax for its collection shall be levied on the wealth of the community, but that its distribution shall be according to population. A wise, broad-minded view of the necessity of extending education where wealth is small will make it plain to anyone that the rural districts ought to receive aid from the state treasury not in proportion to their contributions but in proportion to their needs.

This aid, however, ought to be coupled with requirements raising the standard of rural schools. If the House committee on education at Harrisburg is wise, when it takes up the bill providing that one half the annual school appropriation shall be distributed according to the number of schools in the several districts and the other half according to the number of teachers it will amend the bill so as to abolish the minimum term of six months, of which so many school districts take advantage, require a minimum term of ten months, do away with the summer term, prohibit "provisional" teachers' certificates, advance the standard of qualifications in teachers and make state provision closer, more stringent and more exacting.

If these changes are made the entire state will benefit. It is true that the distribution proposed will reduce the aid in Philadelphia by $191,000 and in Allegheny county, $58,408; but if the rural public schools can be improved the result would justify increasing their share of the appropriation. If this improvement is not required the proposed distribution of school money should be resisted to the end. It is a gross injustice to saddle the cost of poor rural schools on the cities of the state and to use the state aid simply to reduce local taxation.

This has been done to a lamentable extent. Our rural schools have made no advance commensurate with the increase of the state appropriation from $400,000 to $5,500,000. In too many cases the state aid has been made an excuse for relaxing local effort. This is ruinous. It is the conduct of paupers, willing to let others for pay their schooling. But for state aid to be directed so as to improve the rural schools is a wise policy, which ought to be supported independent of local considerations.

### Wild Pigeons Disappearing.

The wild pigeon, which was once so plentiful in Pennsylvania, has almost entirely disappeared. A number of the roosts to which they flocked in countless numbers and where they were killed with clubs, have been entirely deserted by them, and the flocks of these birds that used to blacken the sky are no longer seen. The cause of their disappearance has not been explained.

### Philipsburg Won.

In the case of Thomas Waple against the borough of Philipsburg, for $20,000 damages for injuries sustained by a fall on a poor boardwalk, and which was on trial in the court here from Monday afternoon until Thursday afternoon, the jury returned a verdict in favor of the defendant, the borough. This disposes of another case of damages against a borough.

"WHERE DIRT GATHERS, WASTE RULES."
GREAT SAVING RESULTS FROM THE USE OF
# SAPOLIO

### The Storm Almost Isolates Bellefonte

Of all the many snows and storms we have had this season, the one of last night was certainly the worst all around. It just snowed enough to drift heavily and the tremendous wind of last night piled the feathery flakes in a mass almost as solid as rock and from three to six feet deep. All the railroads entering here were entirely blocked. At this writing, noon, the only road getting a train through was the Bald Eagle and it came in an hour and a half late. The Lewisburg has not yet attempted to run trains from either end; neither has the Snow Shoe. On the Bellefonte Central a train went out but the last heard of was sticking in a huge drift above Filmore. The Central Pennsylvania started a train which got down four miles below Nye bank where it stuck and it took two extra engines to get the one car and engine out of the snow and back to Bellefonte. The management think it may take two days to open the road clear through.

Bert Hogue, a freight conductor on the Central, had his face frozen while working in the snow.

The thermometer is only around the zero mark but the awful wind makes it seem much colder. It is certainly the worst of the season and we hope will soon be over, otherwise there will be great suffering everywhere, and especially among the poor.

LATER.—So far as can be learned just before going to press, no attempt has been made to open traffic on the Lewisburg road, it being considered a useless task so long as the high wind prevails. On the Bellefonte Central another engine and a force men has been sent out to bring the train back to Bellefonte, the attempt to reach the College having proven an utter failure.

### Protection For Coal Miners.

The measure introduced by Representative Wyatt, of Schuylkill, requiring that automatic safety controllers be placed on all engines hoisting men from shafts, slopes, strippings or quarries, is a measure of the utmost consequence to employees in the anthracite coal region. Its object is to prevent the mine engineer from losing control of his engine, with its consequent over-hoist.

There are many thousands of men that are hoisted daily from our mines that are entirely dependent on the skill and presence of mind of the one in charge of the engine. It happens much oftener than is reported that the engineer loses control of his engine while hoisting men from the mine. Lives have been lost and limbs injured and property damaged by this means to the extent of thousands of dollars. Last year our readers will remember an accident that occurred in a Michigan mine, where nine men were hoisted up to the shieve wheels, which broke in contact with the cage containing the men, and the mangled bodies dropped back to a depth of hundreds of feet.

The Wyatt bill proposes to place the safety of the miners or employees in the immediate vicinity beyond the chance of the one in charge of the engine losing control of it or the chance of some part of the complicated machinery to refuse to respond to the hand in control of the lever. There are numerous safety clutches to prevent the cage from dropping to the bottom, but as yet there have been few automatic appliances used. This Wyatt measure insuring additional safeguards for many thousands of toilers in mines and quarries of this State ought to be speedily enacted.

In the Dauphin county court on Monday charter was granted to the Central Pennsylvania conference of the M. E. church.

### St. Valentine's Day.

St. Valentine, who for so many years has been presiding over a very cold shrine, is about to be brought back heartily into fashion this month, and sniff the sweet savor of maiden's prayers and sacrifices on his altar. There are to be dances in his honor, and rites observed appropriate to the day. Red roses are to be worn by enthusiastic girls for the full twenty-four hours over which he has dominion, and those who confidently expect the kind saint to give them a glimpse of their future husbands must according to Demorest's Monthly, follow these curious processes. They must hie them to bed one hour before midnight, carrying a taper only, as a light and, never casting a glance to left or right, but looking straight before, put out the taper on entering their bedrooms. On the threshold they must unbind their hair, wash their hands in rosewater, and standing before a mirror slowly eat a crisp seed cake baked in the shape of a heart. This done all in the dark and making sure never to retrace a step, they get to bed and to sleep with all dispatch; for if they can dream before midnight the vision will present the form and features of the future husband. There are cotillions set for St. Valentine's eve, when all favors will be emblems suitable to the season, and a blind-folded debutant, personifying love, will distribute to each man a little red silk heart. On one side is to show, in small gilt lettering, the name of the young woman with whom he must dance the figures; when he presents it she will stick through the silk leaf a narrow pin of gilt and fasten the heart to the left side of her bodice.

—And it is evident that Centre county jurors do not approve of persons making a hole in a pavement, then falling in the hole, just to get a big bill of damages from a borough.

## A RETIRED BUSINESS WOMAN.

### A Page From Her History.

The important experiences of others are interesting. The following is no exception: "I had been troubled with heart disease 25 years, much of that time very seriously. For five years I was treated by one physician continuously. I was in business, but obliged to retire on account of my health. A physician told my friends that I could not live a month. My feet and limbs were badly swollen, and I was indeed in a serious condition when a gentleman directed my attention to Dr. Miles' New Heart Cure, and said that his sister, who had been afflicted with heart disease, had been cured by the remedy, and was again a strong, healthy woman. I purchased a bottle of the Heart Cure, and in less than an hour after taking the first dose I could feel a decided improvement in the circulation of my blood. When I had taken three doses I could move my ankles, something I had not done for months, and my limbs had been swollen so long that they seemed almost putrified. Before I had taken one bottle of the New Heart Cure the swelling had all gone down, and I was so much better that I did my own work. On my recommendation six others are taking this valuable remedy."—MRS. MORGAN, 592 W. Harrison St., Chicago, Ill.

Dr. Miles' New Heart Cure, a discovery of an eminent specialist in heart disease, is sold by all druggists on a positive guarantee, or sent by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, $1 per bottle, six bottles for $5, express prepaid. It is positively free from all opiates or dangerous drugs.

SCRIBNER'S MAGAZINE

AN IMPORTANT CLUB OFFER

SCRIBNER'S MAGAZINE

The Bellefonte Paper.

BY special arangement with the publishers we are enabled to offer SCRIBNER'S MAGAZINE for 1895 and a full years subscription to

## The Bellefonte Republican

For $3.75.

If purchased separately these periodicals would cost $4.50.

IT IS THE PLAN OF SCRIBNER'S to give its readers next year a history of the past 25 years in the United States. (1894-95.) These years have been unparralleled in the history of the world for national development and material progress. The narrative will be written in a graphic and picturesque style by President Andrews, of Brown University, and capable artists will illustrate it.

ROBERT GRANT whose "Reflections of a Married Man" will long be remembered, has written a series of articles on "The Art of Living," in which he sets himself to solve, as far as such problems can be solved, questions which beset every well-to-do family. The Income—The dwelling—Household Expenses—Education of Children—Married and Single Life—The Summer Problem, etc., etc. Beautifully illustrated.

GEORGE MEREDITH, whom more than one good authority has pronounced the greatest of living novelists, has written a strong serial, "The Amazing Marriage" to begin in January.

D. HOWELLS, will contribute a novel entitled "The Story of a Play."

IN THE LAND OF DON QUIXOTE will be a series of three sketches illustrated by Daniel Vierge's wonderful drawings.

SINGLE ARTICLES in great variety have been arranged for and the illustrations will be eleborate.

### How They Were Dressed.

On Wednesday evening Governor and Mrs. Hastings gave a reception to the Senators and Representatives which proved a brilliant affair. The ladies who assisted in receiving were Mrs. Haldeman, Mrs Col. Spangler, Mrs. Norris, Mrs. Senator McCarroll, Mrs. Colonel Reeder, Mrs. Calder, Mrs. McCormick and Mrs. Dull.

The dresses of the ladies were very handsome. Mrs. Hastings wore a buff embossed silk skirt, bodice of mirror velvet trimmed with chiffon lace and jeweled buckles, diamond brooches. Mrs. Lieutenant Governor Lyon wore white brocaded satin. Mrs. Senator T wore white brocaded silk, with pink flowers, trimmed with chiffon and lace trimmings. Mrs. Walton wore white satin brocade. Mrs. Secretary Reeder wore turquoise blue trimmed with lace and black velvet. Mrs. Attorney General McCormick wore plain black duchess satin, bodice, square neck and elbow sleeves, trimmed with dead jet, diamond brooch. Mrs. Secretary Beitler wore old rose figured silk, trimmed with black chiffon and passementerie and diamonds. Mrs. Colonel Spangler wore iridescent brocaded silk, apple green velvet, trimming and diamonds. Mrs. Senator McCarroll wore rose straw colored brocade satin, trimmed with duchesse lace. Mrs. Colonel Reeder wore helictrope brocade silk, duchesse lace, pearl and velvet trimmings with diamonds.

—It keeps the coal men busy from early in the morning until eight o'clock at night hauling fuel to supply the demand during the present cold weather.

SULPHUR BITTERS

THE GREAT

German Remedy.

TRUTHS FOR THE SICK.

For those deathly Bilious Spells depend on SULPHUR BITTERS it will cure you.

$1,000 will be paid for a case where SULPHUR BITTERS will not assist or cure. It never fails.

VIGOROUS HEALTH for MEN

THE PASTILLE CURE FOR NERVOUS DEBILITY — TRADE MARK

Prof. HARRIS' SOLUBLE MEDICATED Pastille

Has been put up in a proprietary form since 1878, and has been used for years prior to that time in private practice. It is no untried nostrum, of doubtful reputation, but a genuine specific for a very prevalent disease. Thousands of men, of all ages, have at some time in life brought on nervous debility and exhaustion, with organic weakness, by over brain work, excesses, too frequent indulgence or indiscretion and vicious habits, and it is to these that we offer a remedy that will, by its direct action upon the seat of the disease, stop the drain and restore the patient to vigorous health and strength.

Our method of introducing Prof. Harris' Pastille treatment is one which commends itself to all sensible persons—for the reason that we supply it upon their judgment of its value. We ask of our patrons nothing in the way of expense beyond a postal card and a two cent postage stamp. The postal card to be used in sending us their full address and the postage stamp for the letter returning the statement of their case for which we supply them with a question blank, to be filled out and an envelope addressed to ourselves for use in returning it when filled.

FREE TRIAL PACKAGE. When we receive the statement on blank we prepare eight days' treatment and forward it by mail and prepay postage thereon—and along with the eight days' treatment we send full directions for use. The treatment in no way interferes with a person's attention to business, and causes no pain or inconvenience in any way.

We are so positive that it will give perfect satisfaction that we leave the matter of sending orders entirely with those using the free trial treatment. Having satisfied those sending for trial packages of our ability to benefit their sexual condition we feel that they are more largely interested than ourselves in continuing the use of the Pastilles. Even then we do not attempt to rob them by demanding high prices. On the contrary, we make the prices as low as possible, and the same to all. They are as follows: $3 for one month; $5 for two months; $7 for three months.

Trade Mark.

These prices secure the delivery of the Pastilles by mail. If desired by express we leave the patient to pay the charges. For over ten years we have operated our business upon this plan with satisfactory results.

We ask all persons needing treatment for any of the secret ills which come to mankind through a violation of nature's laws to send us their address on postal card or by letter and allow us to convince them that PROF. HARRIS' SOLUBLE MEDICATED PASTILLES have merit and are what they need.

All correspondence strictly confidential and should be addressed to

### Surrounding Counties.

The borough of Altoona was organized February 6th, 1854, forty-one years ago Wednesday.

Mrs. V. Fink, aged 80 years, died at the home of her son in Huntingdon, on Monday evening.

Mrs. Ann Mealey, of Johnstown, died on Sunday night, having passed the ripe age of 85 years.

Daniel Black, a guard at the reformatory, is seriously ill with typhoid fever at his home in Huntingdon.

A little son of David Shultz, of Entriken, Huntingdon country, died on Sunday from the effects of falling in hot winter.

Eight inmates of the Huntingdon reformatory received their final discharge last week. There are 545 in the institution.

The clothing of four years old Carl Flock of Williamsport, caught fire from a lighted candle he was carrying and the child was badly burned.

In the clothing last worn by Helen Stiner, a seamstress who died at Altoona recently, was discovered $1400. It was supposed that she was penniless.

Rivalry among telephone companies in Johnstown may culminate in litigation, which will be costly to the litigants and profitable to the attorneys on both sides.

Cases of diphtheria lately occurred in Johnstown which were not reported to the board of health and the premises in which the children live were open to visitors.

Reports from Jennertown, Somerset county, near where Farmer Umberger was murdered by the Nicely boys five years ago, revive the story of the ghosts of the murdered man and his murderers appearing on dark nights.

Augustus Prentis, who committed a fiendish assault upon a young school mistress at Keating, Clinton county, some months ago, has been run down and is now in jail at Lock Haven. Justice will never have her own until he is in the penitentiary.

### Ram's Horn Blasts.

God warns us because he loves us.

Which are you having, the devil's war or his peace?

If you feel right, believe right and do right.

Not train up the boys properly is to help the barkeeper.

When the devil goes out to deceive he puts on his best coat.

Have nothing to do with the thing that bad men are in favor of.

The thing God has for us to do is always put within easy reach.

Man had to have a command before God could give him a promise.

The cords that lift us toward God some times pass through coffin handles.

If you are not helping anybody you are making it very hard for God to help you.

If you do not rejoice in the Lord the world will not believe that you know Him.

Every dollar that goes into a Christian's pocket ought to have God's name on it.

God never gives us any more to do at one time than He knows we can accomplish.

It is hard to convince a man who will steal chickens that there is any sense in theology.

The Bible has promises on every page for the man who is willing to say goodbye to sin.

God's sheep can live for swine on husks, but they will not take on any fat while doing it.

Every time we look at the dust under our feet we ought to remember where God found us.

The man who drinks when he wants to will some day have to drink when he don't want to.

The people most in danger of going to hell are those who expect to start for Heaven to-morrow

We have no right to expect God to help us next week, unless, unless we are willing for Him to help us now.

No man has a call from God to go to the heathen who has never lifted a hand for Christ in his own house.

### Stereopticon Entertainment at the Y. M. C. A.

Friday evening, February 15th, Mr. G. W. Sheckler will give a stereopticon entertainment in the gymnasium building, "A trip from America to Jerusalem." Members of the association can secure tickets free by calling at the rooms. Admission to non-members only 10 cents. This will be the finest entertainment of the kind given in Bellefonte this season. Mr. Sheckler has been over 20 years on the platform and is highly competent to handle the subject of the evening. A treat for everybody who will attend.

It is reported that the various European nations will intervene in the war between China and Japan when the former admits it vanquished and honestly sues for peace. It is further stated that the Governments do not propose to meddle with Japan's right to such material as it may have captured or to its occupying certain territory until China shall have paid all indemnities and fulfilled other conditions agreed upon, Whether or not any such understanding has been arrived at, there is nothing startling in the suggestion, for such steps are not entirely without precedent. It is hardly likely, however, that such intervention will be necessary, for Japan has shown itself to be ready to accept peace with its conquered enemy as soon as the latter will exhibit a sincere desire to treat for it.

### LATEST NEWS FROM HAWAII.

#### An Account of Happenings in Honolulu Up to Feb. 2.

Victoria, B. C. Feb. 10.—The steamer Warrimoo arrived here late last night from Honolulu bringing news of happenings bringing news of happenings there up to Feb. 2. On board are three men who have been exiled by the Hawaiian government for participation in the recent rebellion. They are J. Cranston, A. Muller and J. B. Johnson. Mr. Cranston, upon arriving here, sent for the American consul. He intends placing his case in the hands of the American authorities and will seek redress for the expulsion of Muller, Johnson and himself.

Six of the rebels have been sentenced to death for complicity in the recent uprising. The general belief in Honolulu, however, was that no capital punishment would be meted out to the rebels, the first hot feeling of resentment against the disturbers having passed away and given place to one of mercy and moderation.

The trial of the ex queen has probably already occurred. The charges and specifications were served upon her on Jan. 31, and the trial was set for the following week. Her own diary, found at Washington Palace, will be put in as important evidence against her. The impression is general that she will plead guilty and will be leniently dealt with.

Cranston, one of the men who arrived here on the Warrimoo, claims to be an American citizen. He denies absolutely that he was in any way connected with the uprising in Hawaii or even knew that such a thing was contemplated until the day the rebellion broke out. He says his arrest, detention from Hawaii was unwarranted and was a gross outrage. He claims that he and his companions were given no hearing and were unceremoniously placed upon the steamer an hour before she sailed. He says his business in Honolulu was ruined by the acts of the Hawaiian government and that he and Muller were put abroad the steamer with only the cloths they had on when arrested and with the small sums of money they happened to have with them at the time. Cranston says he is going to lay his case before the United States government and demand redress.

Cranston charges that the Hawaiian government is procuring conviction of some of those charged with engaging in the rebellion by means of perjured testimony, and that this fact is notorious in Honolulu.

### State Printing Office Burned.

Harrisburg, Pa., Feb. 10.—The fire which was discovered in the annex of the state printing office on Herr street at midnight was not under control until this morning. The building and contents are a total loss. The books and papers of the superintendent of public printing, in an adjoining building, were saved. Everything else was destroyed.

The loss on building and contents is estimated at $100,000, almost covered by insurance. It is not known how the fire originated. The only work for the legislature that was destroyed was the calendar for the senate and house for Monday night's session. The annual report of the state treasurer was destroyed, but a revised proof is in the hands of the state treasurer. About a hundred pages of the auditor general's report for 1894 has been printed and the manuscript is all destroyed as were other state reports.

State Printer Busch arrived here this afternoon and will endeavor to arrange with one of the printing houses in the city to do his work until he establishes a plant.

### Hilton's Odd Defense.

Lincoln, Neb., Feb. 10.—The peculiar defense of ex-Chief Oil Inspector Louis F. Hilton, who is short in his accounts, is a State sensation. Hilton has submitted a report showing that he had collected $18,000 for inspecting illuminating oils, and $10,000 for inspecting gasoline; that had paid $21,000 in salaries and had turned $2,000 into the State treasury. He claims that he cannot pay the $10,000 fees for inspecting gasoline, because it is not an illuminating oil, and the companies are able to demand the return of these fees. Although the statute says "illuminating oils," all previous inspectors have collected gasoline fees and turned them into the treasury.

The Governor will instruct the attorney general to begin suit against Hilton and his bondsmen at once.

—For the first time in the history of the town Bellefonters witnessed the running of Sunday trains yesterday.

# Bellefonte Republican,

To CORRESPONDENTS.—No communication published unless accompanied by the real name of the writer.
Corespondents should write upon but one side of the paper, and avoid the use of pale or fancy inks.

EDWARD T. TUTEN.

## Local Department.

—Valentine day.

—Did you get one ?

—But you don't know who sent it.

—This has been bad weather on water pipes, but equally as good for the plumber.

—Earle, the young son of Mr. and Mrs. B. C. Achenbach, is ill with an attack of scarlet fever.

—A high grade coffee at a low grade price. Mocha and Java screenings at 22c per pound at the Eureka Grocery. tf

—Some people living on the principal streets have not yet cleaned off the snow from their pavements. Where, oh where s the Street commissioner.

—Remember the open library in the Presbyterian chapel tomorrow afternoon rom 4 to 5 o'clock.

—To see the grand art galleries of Europe with their priceless treasures, attend Sheckler's views at the Y. M. C. A. Friday evening.

—The Bellefonte Club held its annual election on Monday evening and all the old officers were re-elected for the ensuing year.

—Dr. Humphrey's Specific "77" for Grippe and Colds is now on every tongue t will "break up" an obstinate cold that 'hangs on." For sale by all druggists.

—It is said that Mr. Meese, a huckster of Tusseyville, left Philipsburg for his home on last Friday; since which time he has not been seen or heard of. His friends are becoming quite anxious about him.

—The last of the delayed mails came to Bellefonte Monday evening when the 5.14 train brought in two pouches of letters and seven bags of papers. The result was an overload for the mail carriers.

—The time for filing license applications has expired.

—Take a trip to Jerusalem, you won't get sea-sick on the way. Sheckler's views at the Y. M. C. A. Friday evening. Members of the association should call early to get a free ticket. Admission to non-members, 10 cents.

—While in the act of leading a calf across the railroad on Saturday evening, Oscar Osman, of Flemington, was struck by the double-header passenger train and instantly killed. Henry Bigony was with him and was also hit, but not badly injured.

—On Saturday the State College Athletic team elected E. P. Harder captain for the ensuing year, and B. B. Fisher was elected delegate to the inter-state collegiate athletic meeting to be held in Philadelphia in the near future, with instructions to vote for Harrisburg as the place of holding the Spring athletic meet.

—The young son of H. D. Shivery, who lives on a farm about two miles west of Bellefonte, died on Saturday night. The child had been afflicted with the measles, but was supposed to have about recovered when pneumonia set in, which resulted fatally. The child was almost four years old.

—The mid-winter Athletic sports will take place at State College on Friday of this week.

—The total number of licenses filed this year is 52. This is 11 more than was filed last year and 17 more than was granted.

—And now, if the business and moneyed men of Bellefonte want the shirt factory, they can get it by the proper amount of financial assistance.

—After a long contest, J. M. Bloom was Monday appointed postmaster at Clearfield by President Cleveland. The appointee will succeed Postmaster Row.

—J. M. Aust, Tyrone, has been granted a patent for a car truck; C. E. Dodd, Williamsport, curtain shade holder, and J. G. Douty, Williamsport, electric railway.

—John Hile Gladfelter, son of Charles and Elsie G. Gladfelter, of Eagleville died last Thursday from a complication of diseases. The child was 6 months and 2 days old,

—Bert Taylor and William Buck are doing a good business at their coal yard out by Jackson's Mill. The two young men are selling a good quality of coal at a fair price and they ask a share of the patronage of the people of Bellefonte and vicinity. Read their advertisement in todays NEWS.

—The snow blockade is now broken in this community. The first through train to State College made the trip Tuesday afternoon and the first train on the Lewisburg arrived in Bellefonte Tuesday evening about five o'clock. Until another such a blizzard comes Bellefonte will again enjoy the advantage of unexcelled mail and railway service.

—"The Dazzler" gave a rattling good performance at the opera house Tuesday night, but the audience was a small one.

—The Bellefonte male quartette will go to Pleasant Gap on Friday evening and will sing at the convention being held for the benefit of the Lutheran church, in that place.

### THE SHIRT FACTORY.

**The Committee Made a Favorable Report Tuesday Evening.**

Not over twenty persons were present at the special meeting of the Board of Trade held Tuesday evening to hear the report of Messrs. Sechler and Crider, the committee appointed to investigate the shirt factory enterprise at Lewistown. Both gentlemen had made a pretty thorough investigation of the facts and circumstances surrounding the case and therefore made an exhaustive report which, taken as a whole, was favorable to the shirt manufacturing industry. The report was received and adopted.

Mr. James Harris then made a motion that inasmuch as the committee had "unfolded such a lengthy tale to the shirt (factory) and presented it with an unbroken and untarnished front" he moved that a vote of thanks be extended them. Carried.

A motion to instruct the secretary to draw orders to Messrs. Sechler and Crider for expenses incurred also carried.

Then the Board asked the committee how they felt on the enterprise in question and their answers were highly commendatory. Mr. Harris then moved the passage of a resolution recommending the shirt manufacturing enterprise as a good investment for the community. Passed.

On motion, the President was authorized to consult with the leading business men of the town and then appoint a committee of five to solicit subscriptions of stock. Adjourned.

### PERSONAL PENCILINGS.

Mr. J. L. Montgomery was a visitor in Williamsport on Wednesday.

Mr. Robert Garman came up from Coatesville on Tuesday and is now visiting at his parents home in this place.

Mrs. Frank Barron, who has been visiting her parents, Mr. and Mrs. Scanlon, of Axe Mann, departed for her home in Altoona this morning.

Judge A. V. Larimer has returned from Washington City and is again sojourning at the home of Mr. W. T. Speer, on West High street. His many friends will be glad of another opportunity to greet him.

We were favored this morning with a call from Mr. Samuel T. Gray, of Benore, who never forgets to call at least once a year on the printer. And, when he does call it is always with something to gladden the heart and fill up the pocketbook.

Rudolph Schad is to-day one of the happiest men in Bellefonte. His wife on Tuesday presented him with a handsome, big baby girl, and it being the first-born, of course both father and mother are naturally quite proud of it. It is said that Rudolph has been doing nothing all day but setting up the cigars. Here's our congratulations.

Irvin C. Speer, youngest son of W. T. Speer, in this place, arrived in Bellefonte Wednesday evening from Berwick, Louisiana. It is now almost ten years ago since Irv. went to Tyrone to "get a job." He got it. Worked there a few weeks, then went to Pittsburg and from there migrated hither and yon until he has been over the greater portion of the western hemisphere. He is now located with one of the largest firms in Chicago and is considered their most expert electrician. In looks he is stout and heavy as if the world and all therein agreed with him.

### "Faust."

The "Faust" company had but a small audience at the opera house Wednesday evening. But every one there pronounces it the best that has appeared in this town this winter; if we are any judge, this is an absolute fact. The performers were all actors of the first-class. The scenic effects produced were marvelous. Those who failed to attend missed a good thing; indeed, it was a fine show in every particular. We sympathized with the manager, who must have lost money here, but notwithstanding their discouragement, they performed their parts with just as much care and skill as though they had an audience of a thousand before them. We thank them, as will everyone else in their audience, for the fine exhibition they gave us and feel certain that if they come again they will meet with a more encouraging reception. Mr. Quaid, the manager, is a pleasant gentleman and deserves success wherever he goes.

### What the College Lost.

In the burning of the State printing office at Harrisburg Sunday morning, State College was a great loser. The entire edition of the president's annual report and the College catalogue, a book of over 300 pages bound in cloth and illustrated with 150 half-tone engravings which it took four months to collate and produce, was destroyed, as was also the full year's reports of the Experiment station, including all the tabulated matter, designs and plates, and also a printed report of valuable experiments in tobacco culture, which was shortly to be presented to the legislature. All this occasions a loss of many thousand dollars, and some of it will be very difficult to reproduce. It will also greatly delay the circulation of the president's report.

### A Blizzard Experience.

Some amusing and yet not very pleasant experiences of storm-stayed travelers occurred during the recent blizzard. Rev. J. F. Hartman, of Altoona, and H. S. Stuart, of Bedford, arrived in town about 2 o'clock Monday afternoon, having walked from the State College to Pleasant Gap station where the work train was standing, which they boarded and were brought safely to town. Stuart says that he left State College on Thursday morning for Bellefonte, but the storm overtook him about the time he got to Shiloh. He could neither go backward nor forward, so he took refuge at the home of Mr. George Dale, where he remained until Saturday evening when he walked back to the college. Monday morning he left that place and arrived in Bellefonte as above stated, by walking on the railroad Rev. Hartman, who is pastor of the Second Lutheran church, of Altoona, was to preach to his people as usual on Sunday, but instead of reaching home he was snowbound at the college, cut off from all communication from the outside world.

### Married Fifty Years.

On Wednesday evening, February 13th, Mr. and Mrs. Joseph Garbrick celebrated their golden wedding, it being the 50th anniversary of their marriage. Just fifty guests were present to assist in the celebration of this memorable occasion and it is needless to say there was a jolly good time all around. Mr. and Mrs. Garbrick were made the recipients of many handsome, useful, as well as valuable presents. They have lived a half a century of this life together and are yet vigorous and bid fair to round out another score or so of years.

### Convention at Aaronsburg.

A musical convention will be held in the Reformed church of Aaronsburg, commencing Monday evening, February 18th, 1895, continuing during the week with three sessions daily, and closing with two grand concerts, Thursday and Friday evenings, February 21 and 22. The convention will be under the direction of Prof. P. H. Meyers, of Boalsburg, assisted by Miss Mary Dale, of Lemont, as organist. All lovers of good music should attend this grand jubilee of song.

### Birthday Anniversary.

On Sunday the children, immediate relatives and a few friends assembled at the Garman House to pay their respects to Mr. Daniel Garman who had reached the 76th milestone of life and has the promise of seeing many more. One of the principal features of the occasion was the elegant dinner so much enjoyed by all. Owing to the delay in trains two sons, Dick, of Philadelphia, and Robert, of Coatsville, Pa., could not reach Bellefonte as had been expected.

### Furnace Shut Down.

On Monday morning the fires at the Valentine furnace were banked. The plant has been in successful operation for several months. A scarcity of ore caused by the bad weather and drifts and the necessity making a few repairs about the plant are the reasons for the stop. The ore banks will be kept in constant operation so that a good supply will be on hand when the fires are relighted, which will be in a short time.

### Wild Pigeons Disappearing.

The wild pigeon, which was once so plentiful in Pennsylvania, has almost entirely disappeared. A number of the roosts to which they flocked in countless numbers and where they were killed with clubs, have been entirely deserted by them and the flocks of these birds that used to blacken the sky are no longer seen. The cause of their disappearance has not been explained.

### Hamlet Coming.

On Friday evening of next week our people will have an opportunity of listening to a Shakespearian drama. James Young, an actor of more than ordinary prominence, supported by a strong company will be at the opera house on Friday evening February 22nd to present "Hamlet." Persons who enjoy these productions should not miss this opportunity.

### But They Couldn't.

Conductors Reamer and Cooke undertook to pass each other on the same track at Coburn on Wednesday, but they couldn't. They did succeed, however, in getting very close together and stoving in the front ends of both engines. Had it not been for the presence of mind and quick action of both engineers a serious collision might have occurred, as it was the passengers got a good shaking up.

### Conductor Daley's Condition.

We are glad to announce that the attending physicians deem it possible to save Mr. Daley's arm, that was crushed so badly on Monday morning. The bone is broken in two places and is also splintered, but it is believed with careful attention amputation will now not be necessary. Mr. Daley suffered great pain Monday afternoon and night.

—During the very severe weather of last week the water motor in the Presbyterian church, used to furnish power for the great pipe organ, froze and bursted and during Sunday's services the worshippers had to be content with the old fashioned music, singing without any accompaniment. It will be necessary to send the motor away to have it repaired.

—When a man feels cold on a street corner he is most apt to suddenly put one of his hands into the other with a slap, and move them together up and down, or any way, quickly. According to an exchange he wants to see if he is good to himself, in spite of the cold world; and so, in a way, he shakes hands with himself, and feels better for it.

### The Great Blizzard Over.

The great blizzard which raged throughout all the country from Thursday evening until Sunday morning, has at last ended and to-day the weather is as peaceful and lamb-like as can be. But, although the blizzard is past the blockade on the various railroads has not yet been raised. No trains have yet been run over the Lewisburg or Snow Shoe. On the Bellefonte Central large forces of men were at work all day Sunday and just succeeded in reaching the snowed in train above Filmore and getting it back to Bellefonte. The Central Pennsylvania was busy all day Sunday and succeeded in getting their road in such condition that a freight was started out next morning.

The country highways are still impassable in some places, but are being opened as fast as possible. The delayed mails are now beginning to straggle in, one sack of papers at a time. The warm wave predicted is coming, but it is not known just how warm it will be or how long it will last.

### Got His Arm Crushed.

Freight conductor William Daley, of the Central Railroad of Pennsylvania, met with a serious accident on Monday which may result in the loss to him of an arm He attempted to make a coupling and when in the act of so doing his foot slipped and he fell between the cars, the bumpers coming together on his right arm at the elbow, crushing it beyond description. The accident occurred at the junction and the injured man was at once brought to his home on East Lamb street and a physician summoned. At this writing we have not learned whether or not it will be necessary to amputate the arm.

### Christian Endeavor Officers.

At the last day's session of the Centre County Christian Endeavor convention at State College the following officers were elected for the ensuing year:

President, J. Malcolm Laurie, of Bellefonte.

Secretary, Robert Irvin, of Bellefonte.

Vice Presidents, J. L. Holmes, of State College; John Russell, Philipsburg, and Budd Thompson, of Port Matilda.

Sec.—Treas., Miss Rose B. Levy, of Milesburg.

The next county convention will be held in Philipsburg in February 1896.

### Gregg Post, No. 95.

Regular meeting Saturday night, February 16th. All members are expected to be present, as business of importance relating to Washington's birthday is to be transacted.

There will also be a meeting at 8 o'clock the same evening in the library room of the ladies having the matter of the Turkey dinner and restaurant in charge. All ladies are invited to be present. By order of WILLIAM T. FITZGERALD,
T. R. BENNER, Commander.
Adjutant.

### Marriage Licenses.

Following is the list of marriage licenses granted by the register of Centre county during the past week:

William H. Grove and Fannie M. Corman, of Penn township.

J. E. Foresman, of Liberty township and Ella May Johnson, of Hannah.

John W. Weaver and Mary A. Harris, of Potter township.

Levi Long, of Madisonburg, and Elizabeth Musser, of Penn township.

James McDermott, of Clearfield, and Anna Johnson, of South Philipsburg.

—The Blizzard of March, 1888, was not in it with the present storm and blockade.

## The China-Japan War

It is thought may raise the price of tea and other articles, but we are still furnishing to our customers at the old rates. We take no account of the scrap between the Japs and Chinese, we know some merchants are trying more money to squeeze by advancing the prices of spices and teas, but the old reliable

**EUREKA**

keeps right along at the same old gait with prices as usual, with everything in the grocery line the best and cheapest in the market Call and see us—latch string always out—at Eureka Grocery, High Street, next door to post office.

M. P. TUTEN,
Proprietor.

Highest of all in Leavening Power.—Latest U. S. Gov't Report

### Died in Altoona.

Jacob Daniels, of Stormstown, the aged father-in-law of W. K. Calvert, of 1100 Twentieth avenue, who was so terribly injured by the explosion of the waterback in the latter's house on Friday morning, died at the hospital, the result of his injuries, at 6 o'clock, on Saturday evening. For a time after the deceased was taken to the hospital on Friday morning it was thought his death was only a matter of a few hours, but he rallied and grew stronger. On Saturday afternoon his daughter, Miss Emma Daniels, visited him and he was so strong that there was just the slightest possibility of his recovery. Towards evening, however, he suddenly grew worse and died at 6 o'clock. The remains were given in charge of Undertaker Lafferty, who prepared them for burial. No time has been set for the funeral, but the body will be taken to Stormstown for burial.

Mr. Daniels was 79 years old and was born in Centre county, in 1816. He was the father of the late Mrs. W. K. Calvert, whose funeral he attended on Saturday, Feb. 2. He is survived by one son, Quinn, of Jeanette, and two daughters, Mrs. Amanda Barger, of this city, and Miss Emma, of Stormstown, Centre Co. The deceased was a good Christian and a member of the Reformed church. His wife preceded him to the grave.—Altoona Times.

### A Boy's Death.

Ralph Fern Bathurst, adopted son of Mr. and Mrs. Bathurst, of Halfmoon Hill, was born August 25, 1892, and died January 31, 1895, aged 2 years, 5 months and 6 days.

Dearest Ralphie, thou hast left us,
Gone from sorrow, pain or care;
Waiting for the ones who loved you,
In your life so young and fair.
What a meeting there will be,
When we reach your home above;
Where there never will be parting,
But all is joy, and peace and love.

A FRIEND.

### A Death at the Home.

Mrs. Margaret Derr, aged seventy-three years, died at the Home for the Friendless yesterday. The deceased was a beloved member of the Home family circle, and her taking off caused much grief and sadness. Death was due to the infirmities of age, superinduced by an attack of grip. The remains will be sent to Bellefonte for interment. A son resides in that place.—Friday's Williamsport *Gazette and Bulletin.*

### Fire At Martha.

There was a serious fire at Martha on Friday of last week. On Friday morning at 9 o'clock fire was noticed to have started in the house of Shedrach Williams. The storm was raging fiercely and the cold was extreme. Mrs. Williams was ill in bed at the time. The flames made rapid progress and Mr. Williams hastened to rescue his wife, which he narrowly succeeded in doing, The house and store were destroyed.

The condition of Mrs. Williams has become so much worse that it is feared she will not survive.

### Constables' Fees.

Judge Mayer has handed down opinions deciding that constables could only receive ten cents mileage direct, or one way only, when on official errands, and that one dollar only could be allowed police officers whether they committed one or more persons to jail on the same commitment. The decisions were handed down on cases regularly stated before the court to settle disputes relative to the payment of fees under the new law.

### A Bust of Curtin.

Sculptor Henry Manager, of Wissahickon, has completed a life-sized plaster bust of the late Andrew G. Curtin. Mr. Manger visited Bellefonte after the death of the ex-Governor and procured a death mask. From this mask and the study of a number of photographs the bust was made. Those who have viewed the model pronounce it a true likeness of the great War Governor.

—Next Tuesday the people of Centre county will vote on the poor house question. On this question there is much prejudice. As soon as it was agitated many were pronounced against it and will remain so without ever giving it any serious consideration. County almshouses invariably prove a better and cheaper method of caring for the poor, yet in spite of this they will vote against the measure. The trial of an almshouse is all that is necessary—other counties have profited by the experiment.

—For something fine go to the Y. M. C. A. Friday evening and see the lovely scenes to be exhibited by Mr. G. H. Sechler in the gymnasium building. Admission, to members free; non-members, only 10 cents. Mr. Sechler gave a course of lectures for the Y. M. C. A. of Johnstown, Pa., and Secretary Stewart in a letter of congratulations says: "I have been at many such entertainments before, but never saw the pictures brought out in such a clear, bright way, and the manipulation of them are the best I have seen."

—That crippled girl at Kanesville, Illinois, collecting cancelled stamps, has been about as well advertised of late as the man who purchases a gold brick made of brass.

—Magnolia brand Canned Tomatoes, 3 cans for 25cts. at Eureka Grocery, High street, next door to postoffice. tf

—Strawberries sold in New York last week for $3.50 a box—13 berries a box. An unlucky number and an unlucky price for most persons just now don't have the $3.50

—Mail carrier John Wagner is sick today and assistant postmaster Thomas Howley made the morning trip over his route, there being no other available substitute.

—This is hard weather on stock of all kinds and owners should take as much care, comparatively, of the dumb brutes as they do of themselves. It will pay in the end to do it.

—Salmon Strong, an old and respected citizen of Beech Creek, died last Thursday, at the advanced age of 85 years. Mr. Strong had been a resident of Beech Creek for the past fifty years.

—Do you want to see something fine? then go to the Y. M. C. A., tomorrow night. Sheckler will show you some of the finest views you have ever seen. "A trip to Jerusalem" for only 10 cents. Everybody attend.

—A gentleman from Massachusetts who was visiting his son, a student at State College, died suddenly on Thursday night. Owing to the snow blockade his remains could not be sent home until yesterday evening, almost a week after his death.

—The chance of your lifetime to see the lovely scenes in the Emerald Isles, ancient ruins and quaint old castles; attend Sheckler's views at the Y. M. C. A. Friday evening. It costs only 10 cents. Every body come.

—For a sight of scenes beautiful, of castle's old and mountains bold; and palaces of marble bright far away across the sea, attend Sheckler's stereopticon entertainment at the Y. M. C. A. Friday evening. Admission, 10 cents.

—It is currently reported that David Kochler, the well known notion peddler, was frozen to death Wednesday night out beyond Lemont. The telephone wires being out of shape to that place nothing definite could be learned as to the truth or falsity of the report.

—The geese were flying up creek on Sunday—a sure sign of more snow. And the crows were flying near the ground and cawing—a sure sign of soft, warm weather. Now which of these "sure signs" will come true, is the query.

—Beaver & Dale will in a few days move their law office to the new building just completed by the Brockerhoff Brothers, known as "Temple Court." They will occupy rooms No. 1, 2 and 3, in the south-west corner, second floor of the building.

—What has become of the shirt factory movement? Surely the committee which visited Lewistown are ready to report by this time. Don't delay the matter longer but do something at once. If the shirt factory is to be brought here, the sooner the better; if it isn't, let the people know it, and then look for something else.

—"The World's Event for 1895" is the title of an article by Clark Howell, of the Atlanta Constitution, in the February Review of Reviews; no one acquainted with the Constitution or its aggressive editor needs to be told that this event, so far as shall lie in Atlanta's power, will be the the Cotton States and International Exposition to be held in that city during the closing months of the present year. The article is elaborately illustrated with portraits of the officers of the exposition and views of the grounds and buildings. Mr. Howell's enthusiastic setting forth of the aims and methods of the energetic Georgians who have the enterprise in charge is calculated to win friends to the exposition not only in the south, but wherever his interesting article will be read.
